

Director of Cardiac Transplant Program

One of the top cardiology programs in the country as ranked by U.S. News & World Report

The University of Kansas Health System is seeking a Director of Cardiac Transplant to join our team of nationally recognized heart care experts.

About the position and the program

Opportunity for a Director of Cardiac Transplant to oversee the continued growth of our cardiac transplant program

- Spend time participating in advanced heart failure clinic, transplant and VAD clinic, inpatient rounding and strategic outreach
- Provide training and oversight to residents and fellows rotating with the advanced heart failure service
- Perform clinical trials in the area of advanced heart failure and cardiac transplant and participate in scholarly activity derived primarily from clinical and educational activities
- Participate on critical care committees and collaborate with anesthesia and critical care teams for quality and safety improvement work
- The program provides multidisciplinary care in a highly collaborative environment
- Salary commensurate with training and experience; includes outstanding benefits

About The University of Kansas Hospital

- 910-bed academic medical center
- 12th consecutive year ranking with US News & World Report's "Best Hospital" designation
- Consistently earns national recognition for outstanding quality and safety
- Magnet-designated by ANCC since 2006
- Certified Comprehensive Cardiac Center by The Joint Commission

About Kansas City
