

Neurologist - Movement Disorders

Neurology at the University of Kansas Medical Center and The University of Kansas Health System in Kansas City seeks a Movement Disorder Neurologist to join the team at our premier academic medical center located in Kansas City.

Our neurology department consists of a robust and growing faculty in an exceptionally collaborative work environment that includes neurologists and subspecialty neurologists as well as colleagues representing over 200 medical specialties. Our Faculty Mentoring Program supports professional advancement.

About the position

- Provide exceptional clinical services to patients with neurologic disorders
- Train the next generation of providers (including neurology residents)
- Board-certified/eligible in neurology
- Subspecialty training in movement disorders
- Eligible for medical licensure in Kansas
- Excellence in quality patient care and safety

Academic rank commensurate with experience.

About Kansas City

Kansas City is a bi-state region of greater than 2 million population with:

- A foundation of diverse industries supporting a solid economy
- Quality public and private education choices at all levels
- Affordable housing - downtown lofts/suburban neighborhoods/country living
- A robust arts scene - symphony, ballet, theatre museums and more
- Amazing dining - KC barbeque and extensive local fare options
- Professional sports teams (Royals/Chiefs/ Sporting KC) and NASCAR Kansas
- Outdoor activities that abound year-round with more than 600 parks and 24 public lakes
- "Hidden gem" reputation winning the award of America's 4th most Cultured City by Travel +Leisure magazine
