# Community Health Needs Assessment

## Table of Contents

### I Executive Summary

### II Methodology

- a) CHNA Scope & Purpose
- b) Local Collaborating CHNA parties...the identity of any and all organizations with which the organization collaborated and third parties that engaged to assist with the CHNA.
- c) CHNA & Town Hall Research Process... a description of the process & methods used to conduct the CHNA, a description of how the organization considered the input of persons representing the community, and an explanation of the process/criteria used in prioritizing such needs.
- d) Community Profile (Demographics/Economics)... a description of the community served by the facility and how the community was determined. TABS 1-2

### III Community Health Status

- a) Town Hall CHNA Findings: Areas of Strengths & Areas to Change and/or Improve.”
- b) County Health Area of Future Focus... a prioritized description of all of the community needs identified by the CHNA.
- c) Historical Health Statistics – TAB 3-10

### IV Inventory of Existing County Health Resources

- a) Physician Manpower, Health Service Offerings, Detail Inventory of HC providers and Detail Listing local DOH... a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

### V Detail Exhibits

- a) Patient Origin & Access to Care
- b) Town Hall Attendees, Notes & Feedback... who those persons are (with qualifications)
- c) Public Notice & News
- d) Primary Research Detail

*Shaded lines note IRS requirements*

# **I. Executive Summary**

**[VVV Research & Development INC]**

## I. Executive Summary

The following report is the Community Health Needs Assessment (CHNA) prepared on behalf of **Olathe Medical Center (Primary Service Area) for Johnson & Miami Counties KS.**

Creating healthy communities requires a high level of mutual understanding and collaboration with community individuals and partner groups. The development of this assessment brings together community health leaders and providers along with local residents to research, prioritize county health needs and to document community health delivery successes. This health assessment will serve as the foundation for community health improvement efforts for next three years. The Patient Protection and Affordable Care Act (ACA) require non-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA.

Year 2013 CHNA brings together a variety of health status information. This assessment was coordinated and produced by VVV Research & Development INC. from Olathe, KS under the direction of Vince Vandehaar, MBA. Important CHNA benefits for the sponsoring local hospital and health department, as well as for the community, are as follows: 1) Increases knowledge of community health needs and resources, 2) Creates a common understanding of the priorities of the community's health needs, 3) Enhances relationships and mutual understanding between and among stakeholders, 4) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improve the health of the community, 5) Provides rationale for current and potential funders to support efforts to improve the health of the community, 6) Creates opportunities for collaboration in delivery of services to the community and 7) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs.

### **Town Hall Community Health "Strengths" Cited - Olathe Medical Center Primary Service Area (PSA) Johnson Co. KS**

- **Affluent population , Low unemployment rate**
- **Access to care – number of PCP's, Multiple options for care; many providers**
- **Extensive parks and trails system; no cost opportunities for recreation**
- **School health services, excellent school districts. OMC's connectivity to schools**
- **Lower smoking %, Low crime rate**
- **Quality of care for senior citizens**
- **Collaborations between county agencies and nonprofits to improve health.**
- **Access to healthy foods**
- **Maternal/infant health (prenatal care & breastfeeding)**
- **Staff/bed ratio**
- **Motor vehicle accident rate**
- **Pediatric immunization**
- **Hospice care**
- **Health partnership clinic of Johnson County -federally qualified June 2012**

**CHNA "Health Priorities" Cited - Olathe Medical Center PSA Johnson Co. KS**

<b>Johnson County KS (OMC PSA)</b> <b>Town Hall Community Health Needs Priorities N = 40</b>				
#	HC Topics cited to either change or improve	Votes	%	Accum
1	Obesity (%) increasing *	22	15.3%	15.3%
2	Need for Mental Health services *	19	13.2%	28.5%
3	Uninsured, underinsured, charity care to high *	19	13.2%	41.7%
4	Need for additional Health education offerings	14	9.7%	51.4%
5	Chronic Disease management (heart & cancer)	10	6.9%	58.3%
6	Additional Senior activities / services	9	6.3%	64.6%
7	Availability & affordability of healthy food *	6	4.2%	68.8%
8	Funding of Healthcare *	6	4.2%	72.9%
9	Better HC data collection methods & reporting.	4	2.8%	75.7%
10	Encourage / Increase Mammographies	4	2.8%	78.5%
11	Achieve higher Immunization rate	4	2.8%	81.3%
12	Access to outcomes data	4	2.8%	84.0%
Note: * Johnson County Department of Health & Environment Community Health Improvement Plan YR 2011 Priorities: 1) Physical Activity / Nutrition, 2) Access to Healthcare and 3) Substance Abuse / Mental Health. ** Other Town Hall items receiving votes: Tobacco/Alcohol, Walkable streets, Dental uninsured, Domestic Violence, Substance Abuse, Home Care, PCPs for Aging pop, Transportation, Self care programs and Specialist appointments.				

**Key Community Health Needs Assessment Conclusions (Secondary Research)**

- KS HEALTH RANKINGS: According to the 2012 RWJ County Health Rankings study, Johnson County ranks number one in the majority of areas of State of Kansas ranking (of 105 counties). Johnson County's lowest two rankings were in Morbidity – Quality of Life (11<sup>th</sup>) and Physical Environment – Environmental Quality (63<sup>rd</sup>).
- TAB 1: Johnson County's population has slightly increased over last 4 years (5.4%) - Year 2006 to 2010. The number of persons per square mile in Johnson County is 1150 – very dense population compared to other Kansas counties. The percentage of people living 200% above the poverty level is also higher (84.4% to 65.5%) than Big 6 KS Norm composed of Johnson, Wyandotte, Douglas, Shawnee, Riley and Sedgwick counties.
- TAB 2: Johnson County unemployment is lower than KS state and Big 6 KS norm by 1 percent (5.3%). The percentage of families (3.6%) and children (7.1%) living below poverty level are lower as well.

- TAB 3: The percentage of students who graduate high school in Johnson County is higher than the state norm and Big 6 (87.7%). The percentage of students eligible for the free lunch program is much lower than the state norm (15.5% as compared to 47.4%).
- TAB 4: The percentage of low birth weight is similar to the state norm and other counties (6.3%). The percentage of births with prenatal care in the first three months (87.2%) and the percentage of mothers who initiate breastfeeding (85.8%) are both higher.
- TAB 5: Total hospital inpatient discharges (approximately 53,000) in Johnson County have fluctuated minimally over last 3 years. Surgical percentage has decreased slightly from 26.6% in FFY 2009 to 25.9% in FFY 2011.
- TAB 6: The number of persons served along with dollars spent on mental health, food assistance & energy assistance in Johnson County has increased substantially from 2009-2011. For example, food assistance rose from 13,996 (persons served) in Year 2009 to 21,932 in Year 2011.
- TAB 7: The percentage of excessive drinking (18%) and adults who are binge drinkers (16.7%) are higher than the state norm and Big 6 KS Norm. The percentage of obesity (24%) and physical inactivity (17%) are lower.
- TAB 8: Johnson County has a lower rate of uninsured (10%) compared to KS state and Big 6 KS norms (15%).
- TAB 9: Leading causes of death in Johnson County are Cancer and Heart disease. Mortality rates are higher than norm for Atherosclerosis.
- TAB 10: The percentage of adults 18 and older who received a flu shot during the past 12 months is slightly higher than the state norm (46.1%).

## **II. Methodology**

---

**[VVV Research & Development INC]**

## II. Methodology

### a. CHNA Scope and Purpose

The new federal Patient Protection and Affordable Care Act requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital who has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

#### **JOB #1: Meet/Report IRS 990 Required Documentation**

1. a description of the community served by the facility and how the community was determined;
2. a description of the process and methods used to conduct the CHNA;
3. the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA;
4. a description of how the organization considered the input of persons representing the community (*e.g., through meetings, focus groups, interviews, etc.*), who those persons are, and their qualifications;
5. a prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
6. a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community that are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (*e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.*).

#### **JOB #2: Making a CHNA Widely Available to the Public**

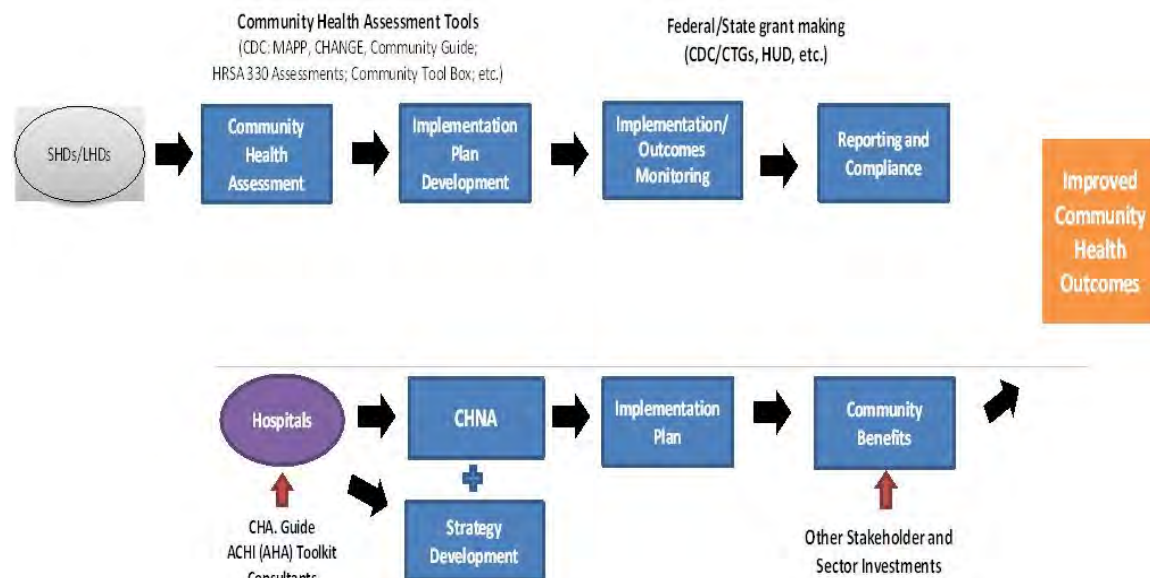

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA "widely available to the public"** after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format, or (2) a link to another organization's website, along with instructions for accessing the report on that website. *The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

### **JOB #3: Adopt an Implementation Strategy by Hospital**

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from both hospitals and the local county health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

## IRS Notice 2011-52 Overview

### Applicability of CHNA Requirements to “Hospital Organizations”

The CHNA requirements apply to “**hospital organizations**,” which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. *The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public.* **The CHNA requirements are effective for taxable years beginning after March 23, 2012.** As a result, a hospital organization with a June 30 fiscal year end must conduct an initial CHNA for each of its hospital facilities by June 30, 2013, either during the fiscal year ending June 30, 2013 or during either of the two previous fiscal years.

### Determining the Community Served

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility’s principal functions (e.g., specialty area or targeted disease). *A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).*

### Persons Representing the Community Served

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility’s defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

**Required Documentation** The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

---

## ***Making a CHNA Widely Available to the Public***

The Notice provides that a CHNA will be considered to be “**conducted**” in the taxable year that the written report of the CHNA findings is made **widely available to the public**. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA “widely available to the public” after the rules currently in effect for Forms 990. *Accordingly, an organization would make a facility’s written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization’s website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

## **How and When to Adopt an Implementation Strategy**

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. **The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it.** A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

**Under the Notice, an implementation strategy is considered to be “adopted” on the date the strategy is approved by the organization’s board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf.** Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. *This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.*

## **II. Methodology**

### **b. Collaborating CHNA Parties**

Working together to improve community health takes collaboration. Listed below is an in depth profile of the local hospital and health department CHNA partners :

#### **Olathe Medical Center**

20333 West 151st Street  
(I-35 and 151st Street, Exit 215)  
Olathe, Kansas 66061  
913-791-4200

**Frank H. Devocelle**, President/CEO

Nearly six decades ago, local founders of Olathe Health System envisioned a responsive and responsible healthcare provider to the families in our communities, a continuum of compassionate competent care that would span every stage of life.

This indigenous healthcare startup thrived in native soil, growing from a modest 30-bed hospital in 1953 to a vital regional health network today that serves five counties through **Olathe Medical Center**, Miami County Medical Center, the 34 family care and specialty clinics of Olathe Medical Services, and a roster of more than 300 physicians and 2,600 employees.

Today, the Olathe Health System purpose remains steadfast: respond to our communities, their families and their healthcare demands with the highest possible level of medical professionalism, advanced technology, and professional care. Remaining independent and locally owned in today's prevailing trend to healthcare conglomerates requires deeply rooted sensibilities and an unwavering dedication to the healing arts. These qualities drive the Olathe Health System commitment to be the heart of high-tech care. This is the promise that shapes every decision, every action, every day.

**Mission**

*Olathe Health System is focused on improving the health of all individuals in the communities we serve by providing compassionate, quality healthcare in an environment of trust and collaboration.*

**Vision**

*Olathe Health System is committed to be the premier healthcare provider and employer throughout the communities we serve.*

For nearly 60 years, **Olathe Medical Center** has continued to expand its services to meet the growing needs of the community. Today, Olathe Medical Center is located at Olathe Medical Park, one of the largest hospital campuses in the Midwest - a nearly 250-acre campus at 151st Street and I-35 in southern Johnson County. The four-story acute-care medical center is licensed for 300 beds and averages more than 44,000 patient care days per year. Its emergency care center is one of the busiest in the region, with more than 44,000 patients treated annually.

The not-for-profit medical center and its network of practicing physicians specialize in nearly every area of medicine. Olathe Medical Park houses several centers of excellence, including Olathe Medical Center's Accredited Chest Pain Center, the Kansas Cardiovascular Center, Olathe Regional Oncology Center, The Birth Place and The Kansas Joint Specialty Center. What began in 1953 as a 30-bed hospital has become a regional medical center.

## Services and Specialties

The System is known for several centers of excellence, including Olathe Medical Center's Accredited Chest Pain Center, The Kansas Cardiovascular Center, The Birth Place and The Kansas Joint Specialty Center. Olathe Health System also specializes in areas such as primary care, oncology, surgery, diagnostic imaging, rehabilitation, home health and hospice care. Specific services include:

Allergy & Asthma	Neurology
Arthritis & Rheumatology	Neurosurgery
Bariatric Surgery (Weight Loss)	Obstetrics/Gynecology
Blood Disorders (Hematology)	Oncology
Breast Care	Ophthalmology
Cancer Care (Oncology)	Orthopedics & Sports Medicine
Cardiac and Pulmonary Rehab	Pain Management
Cardiovascular Care (Heart)	Pediatrics
Critical / Intensive Care	Pharmacy
Dermatology	Physical Medicine and Rehabilitation
Diabetes Care	Plastic & Reconstructive Surgery
Doctors Who Deliver Babies	Podiatry
Ear, Nose & Throat (Otolaryngology)	Pulmonology
Emergency Medicine	Radiation Oncology
Endocrinology	Radiology
Family Medicine	Rehabilitation Services (Physical, Occupational, Speech)
Gastroenterology	Rheumatology
Hand Surgery	Sinus Care
Hematology	Skin Rejuvenation
Home Healthcare	Sleep Disorders
Hospice	Stroke Care
Infectious Disease	Surgery
Infertility	Urgent Care
Internal Medicine	Urology
Joint Replacement	Vascular Surgery
Laboratory	Vein Care Center
Mammography	Women's Health
Migraine Surgery	Wound Care and Hyperbaric Medicine
Nephrology	

## **II. Methodology**

### **b. Collaborating CHNA Parties (continue)**

## **Government of Johnson County KS – Department of Health and Environment**

Director: Lougene Marsh

Locations: 11875 S. Sunset Drive, Suite 300 Olathe, KS 66061

11811 S. Sunset Drive, Suite 2700, Olathe, KS 66061

6000 Lamar, Suite 600 Mission, KS 66202

*Vision: Leading the Way to a Healthier Community*

*Mission: To Prevent Disease and to Protect and Promote the Health of the Community*

### **Services:**

#### **WIC (Women, Infants and Children)**

WIC is a nutrition program that provides nutrition and health education, healthy food and other services to Kansas families who qualify. [WIC stands for Women, Infants and Children.](#)

WIC's goal is to help keep pregnant and breastfeeding women, new moms, and kids under age 5 healthy. To do this, WIC provides:

- Personalized nutrition information and support
- Checks to buy healthy food
- Tips for eating well to improve health
- Referrals for services that can benefit the whole family

WIC also offers immunization screening and referral, breastfeeding support, and nutrition and health classes on a variety of topics including meal planning, maintaining a healthy weight, picky eaters, caring for a new baby, shopping on a budget and more.

#### **Child Care Licensing**

The Johnson County Department of Health and Environment's Child Care Licensing division works with all child care providers in Johnson County. According to Kansas Child Care Licensing Law, anyone providing care for children other than those related by blood, marriage, or adoption, must be licensed with the Kansas Department of Health and Environment. Click on the links below for more information about child care licensing, classes and resources for child care providers and parents.

- [Child Care Licensing Program](#)
- [Child Care Education/Classes](#)
- [Frequently asked questions](#) for providers and parents/caregivers
- [Resources](#) for providers and parents/caregivers

#### **Immunization Program**

Clients 18 years and younger with private health insurance are required to provide documentation of immunization coverage. Immunization questions? Call (913) 826-1261 and leave a message.

#### **Immunization Clinic Hours (Olathe & Mission):**

- Monday - 8:00 a.m. - 4:00 p.m.
- Tuesday - 10:00 a.m. - 6:30 p.m.
- Wednesday - 8:00 a.m. - 4:00 p.m.
- Thursday - 8:00 a.m. - 4:00 p.m.
- 1st, 3rd and 5th Friday - 8:00 a.m. - 4:00 p.m.
- 2nd and 4th Friday - 8:00 a.m. - 12:00 p.m.

All immunizations are given on a walk-in basis. Click on links below for prices.

#### **Adult Immunizations**

That's right...they're not just for kids. The need for immunizations doesn't end at adulthood. Click the link to see if you are up-to-date on all of your shots

#### **Childhood Immunizations**

Immunizing children protects them from a variety of serious diseases. Immunizations also protect family and friends from getting sick, and can help rid the world of diseases that cause much pain and suffering.

#### **School Immunization Requirements**

Parents/guardians are urged to make vaccinations an early priority for school children. The department gets busier as school enrollment approaches, so getting children vaccinated early will save time. Vaccines protect children against infections that can be deadly or cause problems such as blindness and hearing loss.

#### **Travel Immunizations**

Planning a trip abroad? The Johnson County Health Department of Health and Environment and the Centers for Disease Control and Prevention have recommendations for vaccines to receive before traveling.

#### **Pregnancy Services**

##### **Pregnancy Testing/Family Planning**

The Johnson County Department of Health and Environment assists individuals or couples with the timing and spacing of pregnancies; provides counseling and contraceptive services; assists with infertility and identifying other medical problems; and improves knowledge about reproduction and the prevention of sexually transmitted diseases. Family planning services are available on a walk-in basis.

##### **Prenatal Services**

Women who receive prenatal care experience healthier pregnancies. The Johnson County Department of Health and Environment has a skilled staff to meet the needs of both mother and baby prior to delivery. Prenatal services are available by appointment only at the Olathe clinic (11875 S. Sunset Drive, Ste. 300). In-home assessments, counseling and education are also available. Proof of Johnson County residency is required. **For information or an appointment, call (913) 826-1200.**

##### **Postpartum Services**

Registered Nurses from the Outreach Nurse Program are available for in-home, office or community site visits with new mothers and infants who live in Johnson County. Nurses provide physical assessments, weight checks and education/counseling. Proof of Johnson County residency is required. **For information or an appointment, call (913) 826-1200.**

##### **Targeted Case Management for Pregnant and Parenting Adolescents**

This program provides free case management for pregnant and parenting adolescents age 21 or younger who live in Johnson County and are enrolled in Medicaid. A case manager will help with setting and reaching goals in several life areas, including: daily living situations, education/training, employment, finances, key relationships, parenting, health, empowerment. **For more information, call (913) 477-8367 or (913) 477-8440.**

### b. Collaborating CHNA Parties (continue)

#### **Consultant Qualifications**

#### **VWV Research & Development, Inc.**

Company Profile: 601 N. Mahaffie, Olathe, KS 66061-6431 (913) 302-7264

#### **VINCE VANDEHAAR, MBA**

##### **Principal Consultant & Owner of VWV Research & Development, Inc.**

VWV Research & Development, Inc. was incorporated on May 28<sup>th</sup> 2009. With over 30 years of business & faculty experience in helping both providers, payors, and financial service firms obtain their strategic planning, research & development needs, Vince brings in-depth health industry knowledge, research aptitude, planning expertise, and energy. VWV Research & Development services are organized, formal processes of listening to the voice of the customer. Vince started his consulting business in May of 2009, after working for Saint Luke's Health System (SLHS) of Kansas City for 16 years. Note: Saint Luke's Hospital of Kansas City, SLHS's largest hospital, won the Malcolm Baldrige National Quality Award in March of 2003. The Baldrige examiners cited Vince's department as "Best Practice" in the areas of customer satisfaction, market research, and evaluation efforts (Kansas City Star 3/10/04).

**VWV Research & Development, INC. (Olathe, KS)** consultants have in-depth experience helping hospitals work with local Health Departments to engage community residents & leaders to identify gaps between existing health community resources & needs, and construct detailed strategies to meet those needs - while still adhering to the hospital's mission and budget. Over the past 20 years, Vandehaar has completed 8 comprehensive Baldrige aligned Community Health Needs Assessments for Saint Luke's of Kansas City System facilities (3 campuses) and was contracted to conduct 2 additional independent Dept. of Health consulting projects (prior to IRS 990 regs). Currently in 2012, VWV has 12 CHNA IRS aligned assessments underway for Kansas hospitals & Health Departments.

Vince Vandehaar, MBA is actively involved in the Kansas City community. He is a member the Greater Kansas City Employee Benefits Association, the Society for Healthcare Strategy & Market Development, the American Marketing Association Kansas City Chapter, and Co-Chair of the AMA Kansas City Healthcare Special Interest Group. In addition to these roles, from 2000 to 2008, Vince served as the state chairman for MHA's Data Committee and was a member of KHA's Data Taskforce.

#### **Collaborating Consultants**

Lead Project Coordinator & Planning Analyst

## II. Methodology

### c. CHNA & Town Hall Research Process

Olathe Medical Center's (OMC) Community Health Needs Assessment process began in the spring of 2012. At that time an inquiry was made by Mike Jensen, OMC's Chief Operations and Development Officer to VVV Research & Development to explore the possibility of conducting a comprehensive IRS aligned CHNA. On that date VVV Research & Development INC reviewed: VVV Research & Development CHNA experience, CHNA requirements (in-depth regulations), CHNA development steps / options to meet IRS requirements, and next steps after option approval.

#### VVV CHNA Deliverables:

- Confirm Olathe Medical Center service area meets 75/25 % patient origin rule,
- Uncover/Document Basic Secondary Research – Health of County. Organized by 10 TABS,
- Conduct Town Hall Meeting to discuss secondary data and uncover/prioritize county health needs,
- Report CHNA primary Research (with valid N), and
- Prepare and publish IRS-aligned CHNA report to meet requirements.

(NOTE: To ensure proper (75/25%) Town Hall representation, the following patient origin 3 years summary was generated. For OMC, both Johnson and Miami KS Counties KS resident's views need to be collected and reported to determine primary service area (PSA) health needs.)

The following chart (calendar of events) outlines approved Olathe Medical Center CHNA roles & responsibilities:

CHNA Johnson County KS (OMC) Work Plan Project Timeline & Roles 2012			
Step	Date (Start-Finish)	LEAD	Task
1	8/22/2012	VVV / OMC	Hold Kickoff Conference call with Health Dept. and hospital.
2	8/22/2012	VVV	Send out REQCoimmInvite Excel file. OMC Public Relations Dept. will take lead on Town Hall names/address. Both HLTH Dept. & OMC leaders will contribute.
3	TUES 9/25/12 Noon	VVV / OMC	Prepare/send out PR story to local media announcing upcoming CHNA work (general story)
4	Due by 9/30/12 . Send pdfs to VVV	OMC	Request/receive KHA patient origin data to document service area. Send for IP/OP reports pdfs - Years FFY 2011, 2010 and 2009 PO101E, PO202E, PO103zip, OP TOT223E.
5	Due by 9/30/12 . Send pdfs to VVV	OMC	Send Working Draft of Required Town Hall file to VVV for review REQCoimmInvite.xls
6	Friday OCT 12 Noon	VVV / OMC	Prepare/send out PR story to local media announcing upcoming Town Hall. VVV will mock-up with OMC MRKT send out PR release to media sources.
7	Friday OCT 12th (at least 2 weeks prior to meeting)	OMC	Prepare/send out Community TOWN HALL invite letter. (Use OMC PSA Required data file - joint signature (2). Use VVV letter sample format.)
8	Mon Oct 29 Time TBD	VVV / OMC	Conduct CHNA conference call. Review Town Hall Secondary Research data (10 TABS) + Town Hall ppt
9	1-Nov-12	VVV +	Conduct CHNA Town Hall. Dinner 5:30-7pm JCCC/OMC) Conduct Community Roundtables - Review Basic CHNA info RANK priorities.
10	On or before Dec 15, 2012	VVV	Complete Analysis - Release Draft 1- seek feedback from County Leaders (Hospital & Health Dept.)
11	On or before 2/1/13	VVV	Produce & Release final CHNA report. Post CHNA online.
12	After 2/1/13	OMC	Hold Board Meeting to discuss CHNA needs, adopt an implementation strategy and communicate OMC plan.

To meet IRS aligned CHNA requirements, a four-phase methodology was reviewed and approved as follows:

**Phase I – Discovery:** Conduct a 30 minute conference call with CHNA hospital client and County Health Department. Review / confirm CHNA calendar of events, explain / coach client to complete required participants database and schedule / organize all Phase II activities.

**Phase II – QUALIFY Community Need:**

A) Conduct secondary research to uncover the following historical community health status for PSA. Use KS Health Matters, a joint venture between KHA and KHDE, Vital Statistics, County Health Rankings, etc. to document “current state” of county health organized as follows:

<b>TAB 1. Demographic Profile</b>
<b>TAB 2. Economic/Business Profile</b>
<b>TAB 3. Educational Profile</b>
<b>TAB 4. Maternal and Infant Health Profile</b>
<b>TAB 5. Hospitalization / Providers Profile</b>
<b>TAB 6. Behavioral Health Profile</b>
<b>TAB 7. Risk Indicators &amp; Factors</b>
<b>TAB 8. Uninsured Profile</b>
<b>TAB 9. Mortality Profile</b>
<b>TAB 10. Preventative Quality Measures</b>

B) Gather historical primary research to uncover public health needs, practices and perceptions for hospital primary service areas. Note: Use existing Johnson County Department of Health & Environment Community Health Improvement Plan YR 2012-17 findings to supplement secondary research.

**Phase III – QUANTIFY Community Need:** Conduct 90 minute Town Hall meeting with required county PSA residents. (Note: At each Town Hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur, and a group ranking activity to determine the most important community health needs will be administered.

**Phase IV - Complete data analysis & create comprehensive Community Health Needs Assessment.** Post CHNA report findings to meet IRS CHNA criteria.

After consideration of CHNA stakeholders (sponsoring hospital & local health department) the CHNA Basic option was selected with the following project schedule:

Phase I: Discovery.....	August 2012
Phase II: Secondary Research .....	Sept-Oct 2012
Phase III: Town Hall Meeting.....	November 1, 2012
Phase IV: Prepare / Release CHNA report.....	February 2013

Detail CHNA development steps include:

	<b>Suggested Development Steps</b>
<b>Step # 1 Commitment</b>	<b><i>Determine interest level of area healthcare leaders (Hospital, Health Dept, Schools, Churches, Physicians etc), hold community meeting.</i></b>
<b>Step # 2 Planning</b>	<b><i>Prepare brief Community Health Needs Assessment Plan</i> - list goals, objectives, purpose, outcome, roles, community involvement, etc. Hold Community Kick-off meeting.</b>
<b>Step # 3 Secondary Research</b>	<b><i>Collect &amp; Report Community Health Published Facts. Gather data health practice data from</i> published secondary research sources i.e. census, county health records, behavioral risk factors surveillance, etc.</b>
<b>Step # 4a Primary Research</b>	<b><i>Conduct Community Roundtable (Qualitative Research). Review Secondary Research (Step3) with Community Stakeholders.</i> Gather current opinions and identify health needs.</b>
<b>Step # 4b Primary Research &lt;Optional&gt;</b>	<b><i>Collect Community Opinions. (Quantitative Research).</i> Gather current opinions (Valid sample size) regarding community health needs and healthcare practices. If appropriate, conduct Physician Manpower Assessment to determine FTE Physician need by specialty.</b>
<b>Steps # 5 Reporting</b>	<b><i>Prepare/Present comprehensive Community Health Needs Assessment report (to community leaders) with Recommended Actions to improve health.</i> &lt; Note: Formal report will follow IRS Notice 2011-52 regs &gt;</b>
	VVV Research & Development INC 913 302-7264

## **Overview of Town Hall Community Priority Setting Process**

Each community has a wealth of expertise to be tapped for CHNA development. For this reason, a town hall is the perfect forum to gather community insight and provide an atmosphere to objectively consensus build and prioritize county health issues.

All Town Hall priority-setting and scoring processes involve the input of key stakeholders in attendance. Individuals and organizations attending the Town Halls were critically important to the success of the CHNA. The following list outlines partners invited to Town Hall: local hospital, public health community, mental health community, free clinics, community-based clinics, service providers, local residents, community leaders, opinion leaders, school leaders, business leaders, local government, faith-based organizations and persons (or organizations serving them), people with chronic conditions, uninsured community members, low income residents, and minority groups.

Johnson County's Town Hall, sponsored on behalf of Olathe Medical Center, and was held over dinner on Thursday November 1st, 2012, at the Olathe Health Education Center. Vince Vandehaar, Erin Webb and Amanda Burian facilitated this 1 ½ hour session with over forty community attendees. (Note: a detail roster of Town Hall attendees is listed in Section V a.)

The following Town Hall agenda was conducted:

1. Welcome & Introductions
2. Review purpose for the CHNA Town Hall and roles in the process
3. Present / Review of historical County Health Indicators (10 TABS)
4. Facilitate Town Hall participant discussion of data (probe health strengths / concerns). Reflect on size and seriousness of any health concerns cited and discuss current community health strengths.
5. Engage Town Hall participants to rank health needs (using 4 dots to cast votes on priority issues). Tally & rank top community health concerns cited.
6. Close meeting by reflecting on the health needs / community voting results. Inform participants on "next steps".

At the end of each Town Hall session, VVV encouraged all community members to continue to contribute ideas to both hospital and health department leaders via email or personal conversations.

< NOTE: To review detail Town Hall discussion content, please turn to Section V for detail notes of session and activity card content reporting of open end comments.>

**Erin Webb MA, Business Development**

## Town Hall Participation (You)

- ALL attendees welcome to share.
  - ⇒ Parking Lot
- There are no right or wrong answers.
- Only one person speaks at a time.
- Please give truthful responses.
- Have a little fun along the way.

## I. Introductions: a conversation with the community.

Community members and organizations invited to CHNA Town Hall

**Consumers:** Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

**Community leaders and groups:** The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs – Chamber of Commerce, veterans' organizations, Lions, Rotary, etc., Representatives from businesses – owners/CEO's of large businesses (local or large corporations with local branches), Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials, Foundations, United Way organizations. And other "community leaders."

**Public and other organizations:** Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Welfare and social service agency staff, Housing advocates - administrators of housing programs: homeless shelters, low-income family housing and senior housing, Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

**Other providers:** Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

## II. Review CHNA Purpose & Process

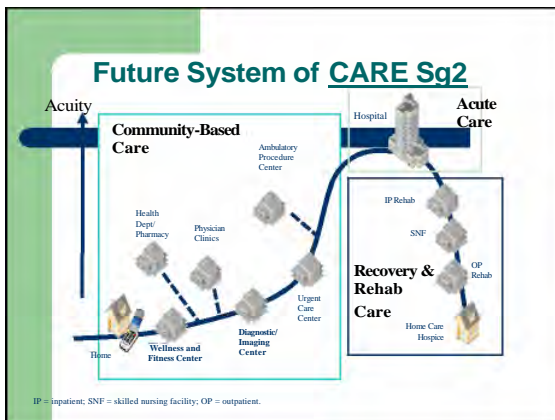

Why conduct Community Health Needs Assessment?

- To determine health-related trends and issues of the community.
- To understand/evaluate health delivery programs in place.
- To develop strategies to address unmet health needs.
- To meet Federal requirements of both local hospital & Health Department.

## Community Health Needs Assessment

Joint Process: Hospital & Health Department

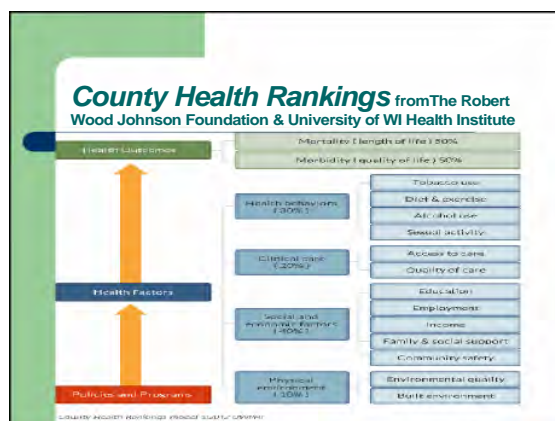

### Required Written Report IRS 990 Documentation

- a description of the community served
- a description of the CHNA process
- the identity of any and all organizations & third parties which collaborated to assist with the CHNA;
- a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
- a prioritized description of all of the community needs identified by the CHNA and
- a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

### III. Review Current County "Health Status"– Secondary Data by 10 TAB Categories plus KS State Rankings

TAB 1. Demographic Profile
TAB 2. Economic/Business Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospitalization / Providers Profile
TAB 6. Behavioral Health Profile
TAB 7. Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

#### IV. Collect Community Health Perspectives Ask your opinion. Your thoughts?

- 1) **Tomorrow:** What is occurring or might occur that affects the health of our community?
- 2) **Today:** What are the *strengths* of our community that contribute to health
- 3) **Today:** Are there healthcare services in your community/ neighborhood that you feel *need to be improved and / or changed*?

#### V. Have we forgotten anything?

# **III. Community Health Status**

---

**[VVV Research & Development INC]**

### III. Community Health Status

#### a. Historical Health Statistics

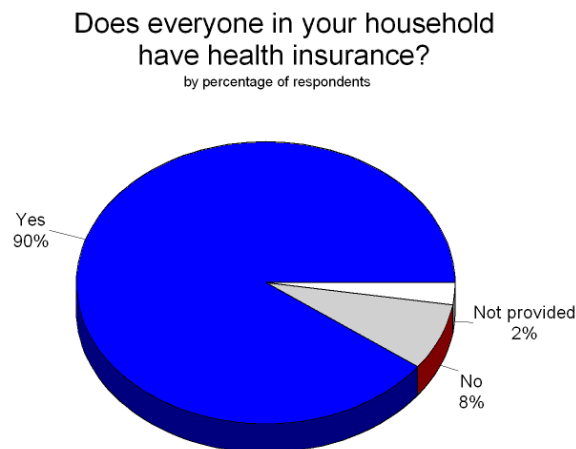

#### **Health Status Detail Profile – OMC Johnson County (KS)**

This section of the CHNA reviews published quantitative and qualitative community health indicators and results of our recent CHNA Town Hall. Below is a table documenting OMC Johnson County KS Town Hall healthcare areas of strength.

Johnson County KS Health Strengths	
1	Affluent population , low unemployment rate
2	Access to care – number of PCPs, Multiple options for care; many providers
3	Extensive parks and trails system; no cost opportunities for recreation
4	School health services, Excellent school districts. OMC's connectivity to schools
5	Lower smoking %, Low crime rate
6	Quality of care for senior citizens
7	Collaborations between county agencies and nonprofits to improve health.
8	Access to healthy foods
9	Maternal/infant health (prenatal care & breastfeeding)
10	Staff/bed ratio
11	Motor vehicle accident rate
12	Pediatric immunization
13	Hospice care
14	Health partnership clinic of Johnson County -federally qualified 6/12

### Primary Research Findings

During September through November 2012, ETC Institute administered a CHNA survey on behalf of Olathe Health System. Following are key questions revealing Olathe PSA public feelings (N=1325) regarding health care delivery:

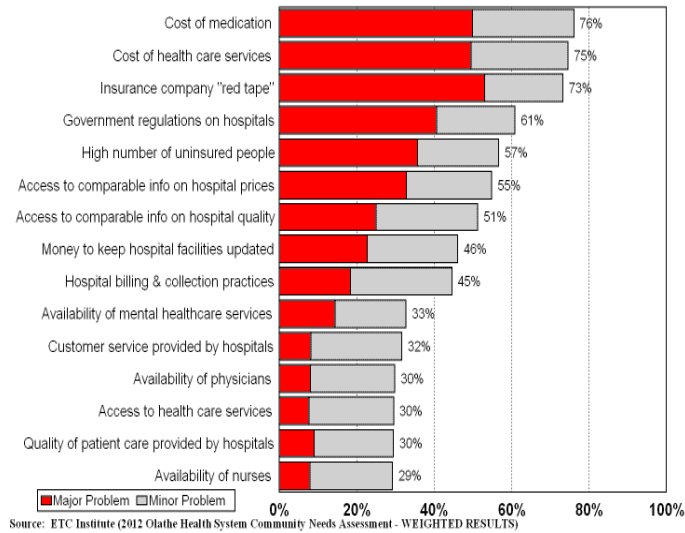

Source: ETC Institute (2012 Olathe Health System Community Needs Assessment - WEIGHTED RESULTS)

Please indicate whether you think the issue is a major problem or a minor problem in your community

by percentage of respondents who felt the item was a "major problem" or "minor problem"

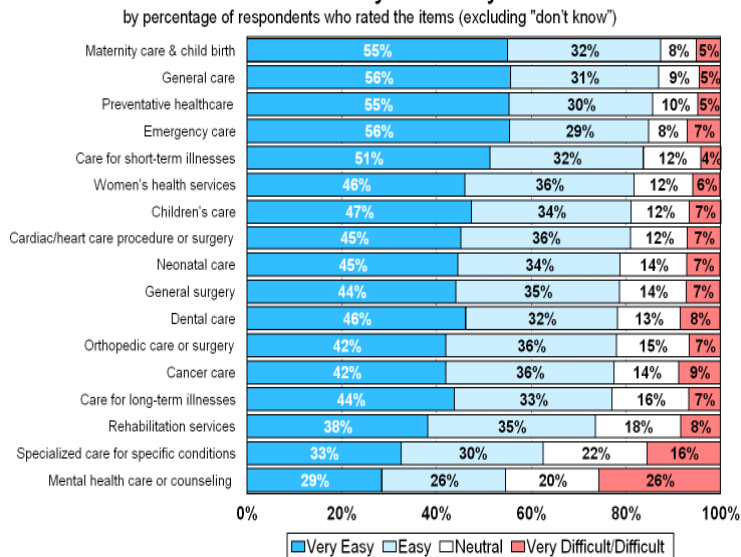

Which THREE of the issues listed above do you think are the biggest health care issues in your community?

by percentage of respondents (sum of top 3 choices)

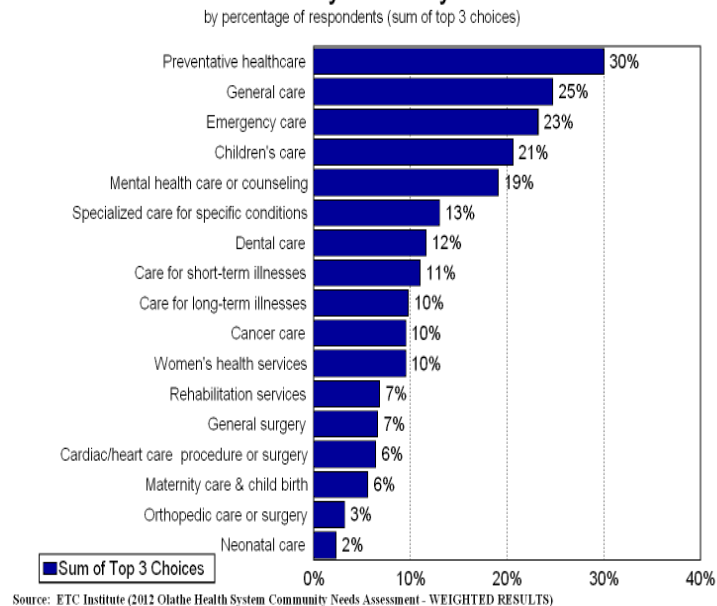

Please rate how easy/difficult you think it is to get access to the following types of health services in the community where you live

Source: ETC Institute (2012 Olathe Health System Community Needs Assessment - WEIGHTED RESULTS)

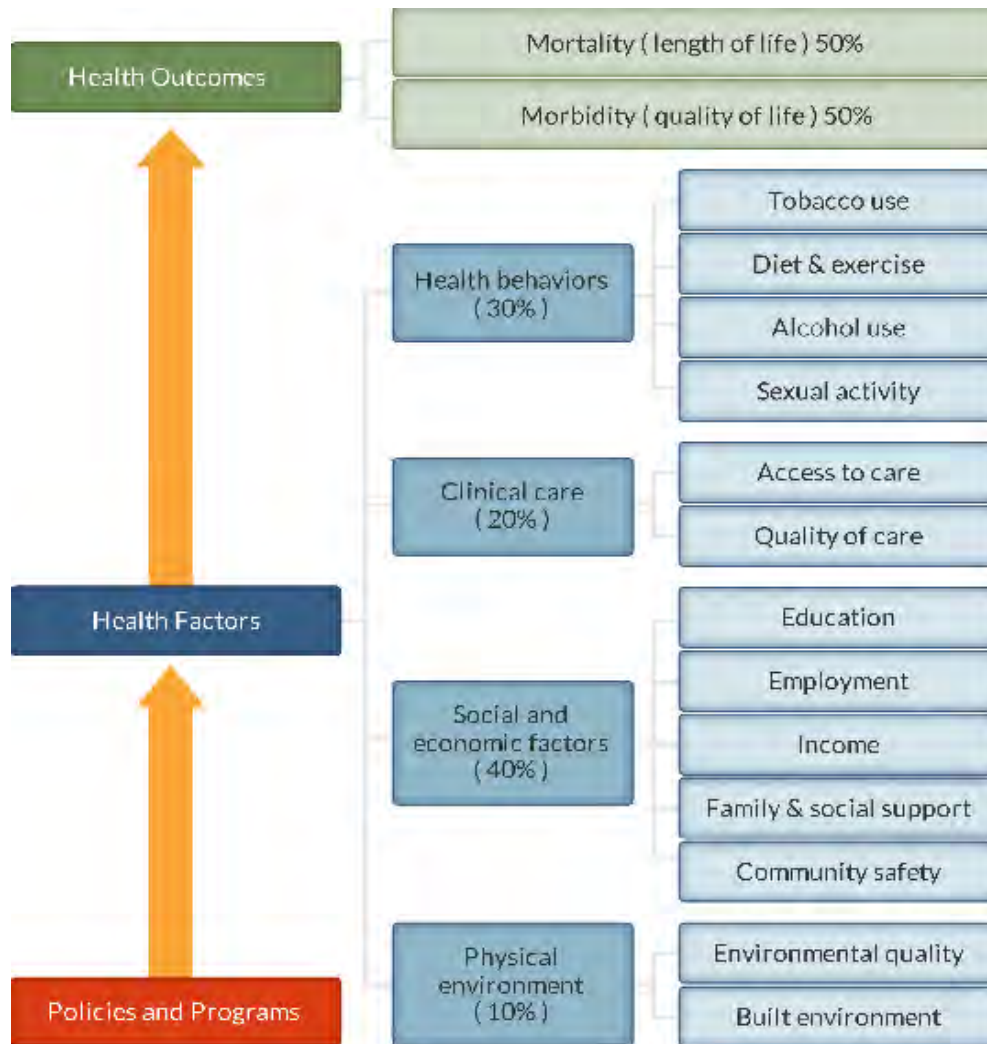

Which THREE of the health services listed above do you think are needed most in the community where you live?

Source: ETC Institute (2012 Olathe Health System Community Needs Assessment - WEIGHTED RESULTS)

## Secondary Research

When considering the state of community health, it's important to review published health data by topic area. To produce this profile, VVV Research & Development staff analyzed / organized indicators into ten areas of focus (10 TABS) and reported 2012 County Health Rankings. (Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*.)

## **United Way 2-1-1 Get Help. Give Help.**

**My resource connection** <http://ims.jocogov.org/rc/>

Need to find counseling? A health clinic? Job training? A food pantry? Want to volunteer or donate goods? Don't waste valuable time trying to find the right resource. By simply dialing 2-1-1 on your phone, you can make just one call to find or give help.

United Way 2-1-1 spans a 23-county area, including 7 counties in Kansas and 16 in Missouri, and has access to literally thousands of resources. And that comprehensive database is constantly being updated so you'll have accurate information. Plus, United Way 2-1-1 saves 9-1-1 for life and death emergencies.

United Way 2-1-1 is an easy-to-remember central phone number connecting people with available community resources and volunteer opportunities. You'll reach a trained, caring professional 7 days a week, 24 hours a day, 365 days a year. All for free, all confidential.

issues, particularly those requiring advocacy. The health care advocate can help with prescription assistance, medical supplies and equipment, medical transportation, referrals to community clinics, in-home health aid, support groups, immunizations and more.

For additional information about United Way's 2-1-1 services, call (816) 474-5112 or toll free at (866) 320-5764.

## Olathe Medical Center – CHNA Town Hall meeting notes 11/1/12

### Strengths/Bragging List

- |  |  |
|--|--|
| 1. Affluent population   |  |
| 2. Access to care – number of PCP's  | improve things such as domestic  |
| 3. Low unemployment rate   | violence   |
| 4. Extensive parks and trails system; no cost opportunities for recreation | 12. OMC's connectivity to schools  |
| 5. School health services  | 13. Access to healthy foods  |
| 6. Lower percentage of smoking   | 14. Maternal/infant health (prenatal care & breastfeeding)                         |
| 7. Low crime   | 15. Staff/bed ratio  |
| 8. Quality of care for senior citizens                                     | 16. Motor vehicle accident rate  |
| 9. Excellent school districts  | 17. Pediatric immunization   |
| 10. Multiple options for care; many providers                              | 18. Hospice care   |
| 11. Collaborations between county organizations and nonprofits in order to | 19. Health partnership clinic of Johnson County became federally qualified in June |

### Weaknesses/Challenges

All notecard entries are reported and coded on following tables.

### Miscellaneous

- Police department tracks behavioral health, some of which is public
- Do we know the funding levels for behavioral health from SRS? Does this affect the trends?
- Numbers on tab 8 (free health care) are extremely conservative
- Can we see numbers for those 65+ who get flu shots?

Is there anything happening in the county that will affect health?

- Health insurance exchange
- Demographic trends in Johnson County and Olathe
- Highest rate in poverty growth in the metro area

Community Health Needs Assessment			
Johnson County, KS OMC PSA (Feedback Cards -Things to Improve/Change)			
CODE1	CODE2	CODE3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
ACC	OTHR		# of Free clinics/reduced cost access; Educational info to Public on services available
ACC	SMOK/WELL	AIR/H2O	Access to care; tobacco use, edu. Inc. soc. Support safety; environmental quality food; bad debt; access to healthy food; immunization
ACC/NEUR	PREV	WELL	Improve ER at Olathe Medical Center -improved care, -access to specialties (neur), more complete thorough assessments, - better care to patients by ER doctors & PA; Improve nutrition to diabetics and obese, -classes, etc.
ACC/PSY/HH	POV	WELL	Improve access to mental health care :evaluation, : treatment; Increase healthy food available to families in poverty -> teach/education on shopping & feeding family on a budget; pest control -> insect infestations, # of students distracted by itching and worried; Obesity - high for health factors being low
AGE	POV	SMOK	Decrease # of people choosing to age in place -> special needs registry; decrease # of youth on free/reduc. Lunch; Increase # of people accessing INIC prog.; Decrease # of folks smoking -expectant mothers, youth older than 18, adults 18 and up; funding - adeq. access
AGE	PREV		Senior care; preventive care
AIR	OBES	PREV	Air quality (too many o-zone alert days); Obesity/eating out as a past time?; uninsured; flu shot rates; injury numbers; suicide rate -> many available resources for prevention
ALC	OBES	INSUR	Binge drinking; obesity; immunization 74% -> 80% >; uninsured/charity care
ALC	OBES	FIT	Infrastructure -walkability; food assistance; drinking - excessive & binge; obesity; immunization rate 80% at least; children in poverty vs. overall poverty; Healthcare data; local fresh fruits & veggies - affordable
ALC	INSUR	EYE/DENT	to decrease drinking rate; can we # from insurance companies on dental & eye care
CHRON	ALC/DRUG	AGE	Chronic disease management (i.e. diabetes); large growth of people 65 yrs & older - how do we keep them healthier; decrease in food assistance for kids as a concern; tobacco & alcohol use; How are we going to pay for it?
CHRON/ALT	CHRON	GEN	Providers networking based on quality outcomes in addition to relationships (preferred providers); Coverage for Medicare popultion for IV antibiotics at home; Increased awareness of alternatives available when dealing with chronic diseases
DENT/EYE	INSUR	ACC/PSY	Access to mental health care/increase - funding needed for mental health (individual, in-home, counseling services, chronic mental health); Decrease the number of underinsured; increase access to dental/vision care -> too many kids go without because there are no resources; need additional substance abuse resources
DRUG/WELL	ALC/DRUG	ACC/FIT	Substance abuse treatment available?; alcohol; smoking; physical activity - access; environmental quality
FIT	OBES		Lost excerise opportunities; Reduce for the obseity levels
GEN	TRAN	VIO	More emphasis on prevention w/ PCP visits; Building codes/housing developments that promote walking, visiting; Emphasis/promotion of what people are doing well in health arena; Affordable F &Es; Awareness of DV & how it interacts with multiple health issues; reporting of DV & abuse, reduce homicides; better data tease out #'s reported/served & #'s qualify or needing; dental for low income /no insurance adults & children; Specialty care for uninsured; Transporation -> need more coordinated services for H &S services; ACA!
GEN	AGE		Primary care; Access for Seniors
H2O/AIR	POV	DRUG	Physical environment - air/water quality; 4.9% of 65+ living below poverty level; largest category of hospital discharges are for 65+; # of people needing food assistance; low # of people served for substance abuse; 24% adult obesity and 17% physical inactivity
INSUR	POV	MAMO	Too many uninsured 10%, too many needing food assitance; too few with mamograms
OBES	PREV	AGE/TRAN	Obesity - inactivity, healthcare screenings, diabetes; mental health measures; uninsured persons; flu shot measures; immunization rate increase 80%; dimentia care; Elderly (65+) living alone services, reach diverse populations; transportation

### **Olathe Medical Center and Johnson County Health Department Invite Community to Town Hall Meeting About Healthcare Needs**

**OLATHE, KAN. (Oct. 8, 2012)** – Olathe Medical Center (OMC) and Johnson County Health Department (JCHD) would like to get input for community members about the healthcare needs and desires in southern Johnson County. Community members are invited to a Town Hall meeting from 5:30 – 7 p.m. on Thursday, Nov. 1 at Olathe Health Education Center, 21201 W. 152<sup>nd</sup> St. in Olathe, Kan., to discuss this topic with representatives from OMC and JCHD. A light dinner will be provided.

At the Town Hall, community members will have the opportunity to share their experiences and suggestions about healthcare in southern Johnson County. This information will be part of a final public report, called the Johnson County Community Health Needs Assessment (JCCHNA). The report will provide guidance to address the county's healthcare needs and also fulfills federal and state healthcare reform mandates.

OMC and JCHD are working with Vince Vandehaar, MBA, principal consultant at VVV Research and Development, Inc., to facilitate the meeting and create the formal JCCHNA report.

# Johnson County Department of Health & Environment and Olathe Medical Center

Invite you to attend a  
**TOWN HALL MEETING**

**Thursday, Nov. 1, 2012 from 5:30 – 7 p.m.**

*A light dinner will be provided.*

**Olathe Health Education Center**

**21201 W. 152nd St., Olathe, Kan. 66061**

*(Johnson County Community College building west of Olathe Medical Center)*

**J**ohnson County Department of Health & Environment (JCDHE) and Olathe Medical Center (OMC) are working together to assess the healthcare needs and desires in southern Johnson County and create a plan to meet those needs.

We invite the public to attend a Town Hall Meeting on Nov. 1 to share thoughts on creating a vision of healthcare in southern Johnson County. Your input from the Town Hall Meeting will be part of a public report, called the Johnson County Community Health Needs Assessment.

Please RSVP for the Town Hall Meeting to  
Olathe Medical Center at 913-791-4311.

---

October 10, 2012

Dear [NAME]:

Olathe Medical Center (OMC) and Johnson County Department of Health & Environment (JCDHE) are working together to assess the healthcare needs and desires in southern Johnson County and create a plan to meet those needs. We believe it is important for community members to be involved in the process and have a chance to share their thoughts on this subject. Please join us on Thursday, Nov. 1 at a Town Hall meeting to discuss this topic with fellow community members and representatives from OMC and JCDHE. You will have the opportunity to share your thoughts on creating a vision about healthcare in southern Johnson County.

Your input from the Town Hall meeting will be part of the final public report, called the Johnson County Community Health Needs Assessment (JCCHNA). OMC and JCDHE are working with Vince Vandehaar, MBA, principal consultant at VVV Research and Development, Inc., to facilitate the meeting and assist in creating a formal JCCHNA report.

The Town Hall meeting is your chance to join us for a very important community discussion and tell us what you think. If you are unable to attend, please consider sending a representative from your firm/agency. Below are the details for the meeting we are asking you to attend:

**Johnson County Community Health Needs Assessment Town Hall Meeting**

**Where:** Olathe Health Education Center, 21201 W. 152<sup>nd</sup> St., Olathe, Kan. 66061

**When:** Thursday, Nov. 1, 2012 from 5:30 – 7 p.m.

**A light dinner will be provided.**

Please RSVP for this meeting to OMC's PR & Marketing Department at 913-791-4311. We look forward to talking with you, and thank you for your participation.

Sincerely,

Frank H. Devocelle, President/CEO  
Olathe Health System

Lougene Marsh, HED, Director  
Johnson County Department of Health & Environment

## What do you think about Johnson County's health care practices and services?

The Johnson County Department of Health and Environment is partnering with Olathe Medical Center and Shawnee Mission Medical Center (SMMC) to assess community health needs. As part of the new federal healthcare reform law (the Patient Protection and Affordable Care Act), non-profit hospitals are required to perform a community health needs assessment (CHNA) every three years. Results of this assessment will provide guidance to address current and future healthcare needs for each hospital's primary service area. Assessment topics include current health practices and healthcare perceptions such as delivery and access to services.

There are three ways to give your opinion:

1. **Complete an online survey by 10/31.** Johnson County residents living near Shawnee Mission Medical Center can win a \$80 Best Buy gift card by completing this survey by 10/31:  
[https://www.surveymonkey.com/s/CHNA\\_SMMC](https://www.surveymonkey.com/s/CHNA_SMMC)
2. **Town Hall Dinner Meeting on Nov. 1<sup>st</sup>** from 5:30-7pm at the Olathe Health Education Center, 21201 W. 152<sup>nd</sup> St., Olathe, KS 66061
3. **Town Hall Dinner Meeting on Nov. 13<sup>th</sup>** from 5:30-7pm at the Matt Ross Community Center, 8101 Marty St., Overland Park, KS 66204

## Eating right, staying fit top health needs of Johnson Co. residents

By Mike Sherry for KHI News Service, Nov. 15, 2012

*On Tuesday evening, Linda Leeper (left), chief executive with the Shawnee Chamber of Commerce, and Cherie Boxberger, of the American heart and stroke associations in Overland Park, discussed the health needs of residents in northern Johnson County. They were among about 40 participants gathered by Shawnee Mission Medical Center to help it comply with a mandate of the Affordable Care Act.*

OVERLAND PARK, Kan. - Help with eating right and staying fit are two top health needs for residents of northern Johnson County, according to a group of community leaders.

At the invitation of Shawnee Mission Medical Center, the officials gathered Tuesday evening at the Matt Ross Community Center in downtown Overland Park.

Other significant needs cited by the participants included improved access to mental health services and options for senior care. About 40 people were at the forum.

Trevor Wright, the hospital's chief operating officer said the feedback at the forum was invaluable.

Hospital administrators can look at data and survey results to determine community needs, "but this puts a face and voice behind that," he said.

The medical center organized the meeting to help it compile a community health needs assessment for its service area, which includes 23 ZIP codes within about 10 miles of the hospital.

The assessments are required under the Affordable Care Act for nonprofit hospitals, according to Vince Vandehaar, the hospital's consultant who facilitated the meeting. He said the health-care reform law broadened reporting requirements to justify hospitals' nonprofit status.

Beginning next year, the rules will require nonprofit hospitals to do a similar review every three years. According to information provided by Vandehaar, hospitals must also have an implementation strategy in place by next year to address the needs determined in the assessment process.

The new requirements also apply to Olathe Medical Center. Vandehaar facilitated a public meeting for that hospital earlier this month.

He said participants at that forum raised similar concerns to those identified in the northern part of the county, including the need for more behavioral health services and help with attacking chronic diseases by addressing problems such as obesity.

It's important to discuss these issues, Vandehaar told the group Tuesday evening.

"Most people don't think about health numbers every day," he said.

The Johnson County Department of Health and Environment also is part of the discussion.

The department issued an updated [Community Health Improvement Plan](#) in May as part of its effort to earn certification through the Public Health Accreditation Board.

The priorities of that plan were mirrored in the issues raised at the hospital forums:

- Increased physical activity and better nutrition for residents.
- Improved access to health care.
- And better availability of treatment for substance abuse and mental health problems.

Vandehaar presented data that included the results of a survey Shawnee Mission Medical Center recently conducted of residents in its service area.

About 10 percent of the approximately 630 respondents listed access to mental health care as "poor" or "very poor." That was the highest negative rating of the availability of services from the survey. The second biggest service gap turned up in the survey was availability of nursing home care; 7.8 percent of respondents ranked access to those services as "poor" or "very poor."

Vandehaar also cited data from the [annual county health rankings](#) compiled by the Robert Wood Johnson Foundation and the Population Health Institute at the University of Wisconsin.

In that report, Johnson County ranked first among Kansas' 105 counties in several categories last year, but it came in 63rd for "physical environment."

Vandehaar attributed that mostly to the relatively poor air quality in the Kansas City metropolitan area, but that category also included resident's access to recreational facilities, which play a role in the physical fitness of a community.

Nothing presented at the forum suggested that Shawnee Mission Medical Center needed to radically shift directions, Wright said. The comments, he said, validated the hospital's focus on wellness and mental health services.

The priorities identified by the group might seem fairly obvious, said participant Cherie Boxberger, quality and system improvement director with the American Heart Association and the American Stroke Association in Overland Park.

But, she said, it helped to see all the facts and figures in one presentation to “get a pulse” for the county’s status and to take a “foundational step” toward addressing the needs.

Johnson County might have plenty of parks and a highly educated population that knows the importance of eating right and exercising, Boxberger said, but that doesn’t mean everyone takes advantage of the amenities or lives a healthy lifestyle.

The hospital and its physicians, she said, can play an important role in driving home the need for personal responsibility.

Your spouse might bug you for years to quit smoking, she said, but it's different coming from your doctor.

“People will listen to their physician,” Boxberger said.

*The Health Care Foundation of Greater Kansas City is proud to partner with the Kansas Health Institute news service to provide weekly health stories about health and policy issues impacting the greater Kansas City region. This News Service is an editorially independent program of the Kansas Health Institute and the Health Care Foundation of Greater Kansas City and is committed to objective coverage of health issues.*

### Special to The Star - 913 News

Imagine this: You walk into the clinic and see a doctor for the first time in 20 years. She says that you have diabetes, and you've got to change everything about your lifestyle, or you could lose a leg or go blind. The clinic has some support groups, but those may not be enough.

That's why the Johnson County Health Department is partnering with Shawnee Mission Medical Center and Olathe Medical Center to assess the health needs of the community and determine what services need additional resources.

"I think it's going to benefit the community in general and raise more awareness in the community about these problems," said Jason Wesco, president and CEO of the Health Partnership of Johnson County.

Wesco sees this sort of situation unfold regularly at the partnership's clinics and says the survey will help draw attention to needs such as behavioral health services, which provide counseling to such patients.

As part of the provisions of the Patient Protection and Affordable Healthcare Act, surveying the community is mandatory. Area health care providers are welcoming the chance to hear the public's concerns.

"We hope that the survey and the town hall will allow us to determine what the community members see as the biggest needs throughout Johnson County," said Shannon Cates, a spokesperson for Shawnee Mission Medical Center. "This is a good chance for us to talk with them directly."

The assessment process includes two town hall meetings and mail-in and online surveys. Both hospitals stress that citizens should not base their answers on a particular hospital or clinic's offerings but look at what is available in the community as a whole.

Shawnee Mission Medical Center is mailing 2,500 surveys to citizens all over Johnson County, but any Johnson County resident can take the survey online at [https://www.surveymonkey.com/s/CHNA\\_SMMC](https://www.surveymonkey.com/s/CHNA_SMMC).

None To boost survey turnout, the hospital is giving away Best Buy gift cards to three randomly selected survey respondents. Participants must return their surveys by today.

"It's the first step in determining what community members feel their health needs are or where services are lacking in the community," Cates said.

Olathe Medical Center spokeswoman Stephanie Manning said the town hall meetings would use a structured approach, featuring a short presentation. After that, participants will have discussions in small groups to come up with a list of their top community health concerns. By the end, the group will have a larger discussion, concluding with a vote to determine a final list of concerns to present to the county.

Officials are hoping that about 150 people will attend each meeting. Manning said the hospital has invited a variety of community leaders and elected officials in addition to the general public.

Some of the issues that health department director Lougene Marsh expects to rise to the top are obesity, nutrition, dental care, mental health and substance abuse.

"Knowing we're never going to have all the resources we need to address all the needs in the community, (this helps by) giving a more razor-sharp focus on what are the highest priorities," Marsh said.

Not all the issues are ones you'd normally associate with health care.

Other items being addressed in the assessment include the affordability of healthy food and the availability of green spaces, such as parks, where people can go to exercise. Marsh said that, in a broad sense, all of these things affect a community's health.

The county is already working on a program to provide free dental screenings to all children through the schools, with the help of local dental professionals, Marsh said.

# Olathe Health System Community Needs Assessment Survey

## *Overview and Methodology*

---

### Overview

**Purpose.** During September 2012 through November 2012, **ETC Institute (Olathe KS)** administered a Community Needs Assessment Survey for the Olathe Health System. The purpose of the survey was to gather information from residents living in Olathe Health System's service area, which includes the Olathe area and other southern Johnson County areas (e.g., DeSoto, Gardner, Edgerton, Spring Hill), together with Miami, Franklin, and Linn counties. The data collected from the survey will help identify resident's attitudes, awareness, perceptions and utilization of the Olathe Health System's services. The survey will also help to identify the reasons potential customers are not utilizing Olathe Health System services and what could be done to increase usage among all customer groups.

### Methodology

**Survey Design.** To reduce the length of the survey and to address specific issues for different customer groups, four versions of the survey were developed. Each survey was tailored to residents living in the following cities and or counties of Olathe Health System's service area: 1) Olathe, 2) Desoto, 3) Gardner, Edgerton and Spring Hill and 4) Miami and Linn counties (the primary service area for the Miami County Medical Center). With the exception of tailoring the survey by City name, surveys created for Olathe, Desoto and Gardner/Edgerton/Spring Hill were the same. The survey created for Miami and Linn counties included many of the same questions as the other three surveys, but several of the questions were tailored to address the Miami County Medical Center. Each version of the survey was seven-pages in length and took the typical respondent about 25 minutes to complete.

**The overall results for questions that were included on the Olathe, Desoto and Gardner/Edgerton/Spring Hill versions of the survey, 1,325 surveys, have a precision of at least +/-2.6% at the 95% level of confidence. The overall results for the Miami/Linn counties survey, 429 surveys, have a precision of at least +/-4.7% at the 95% level of confidence.**
