# Community Health Needs Assessment

## Table of Contents

### I. Executive Summary

### II. Methodology

- a) CHNA Scope and Purpose
- b) Local Collaborating CHNA Parties (The identity of any and all organizations with which the organization collaborated and third parties that engaged to assist with the CHNA)
- c) CHNA and Town Hall Research Process (A description of the process and methods used to conduct the CHNA, a description of how the organization considered the input of persons representing the community, and an explanation of the process / criteria used in prioritizing such needs)
- d) Community Profile (A description of the community served by the facility and how the community was determined)

### III. Community Health Status

- a) Town Hall CHNA Findings: Areas of Strengths and Areas to Change and/or Improve
- b) County Health Area of Future Focus (A prioritized description of all of the community needs identified by the CHNA)
- c) Historical Health Statistics

### IV. Inventory of Existing County Health Resources

- a) A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA

### V. Detail Exhibits

- a) Patient Origin and Access to Care
- b) Town Hall Attendees, Notes and Feedback (Who attended with qualifications)
- c) Public Notice and News
- d) Primary Research Detail

# I. Executive Summary

## Johnson and Miami Counties, KS - 2015 Community Health Needs Assessment (CHNA) Round #2

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders and providers, along with local residents, to research and prioritize county health needs and document community health delivery successes. This health assessment will serve as the foundation for community health improvement efforts for the next three years. The last CHNA for Johnson and Miami Counties, KS was published in February of 2013. (Note: The Patient Protection and Affordable Care Act (ACA) requires not-for-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). This assessment was coordinated and produced by VVV Consultants LLC (Olathe, Kansas) under the direction of Vince Vandehaar, MBA.

Important CHNA benefits for both the local hospital and health department, as well as for the community, are as follows: 1) Increases knowledge of community health needs and resources 2) Creates a common understanding of the priorities of the community's health needs 3) Enhances relationships and mutual understanding between and among stakeholders 4) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5) Provides rationale for current and potential funders to support efforts to improve the health of the community 6) Creates opportunities for collaboration in delivery of services to the community and 7) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs.

Town Hall "Community Health Strengths" cited for Olathe Medical Center's Primary Service Area are as follows:

Johnson Co, KS - Community Health "Strengths"			
#	Topic	#	Topic
1	Community participation in improving health	10	Sufficient availability of primary care
2	Wealth of community	11	Access to fitness centers/opportunities for exercise
3	Quality recreational environment	12	Collaboration between health agencies
4	Strong community leadership	13	High education level
5	Availability of healthcare services	14	Commitment to health in schools
6	Available health education	15	Low morbidity and mortality rates
7	Charitable hospital	16	Range of specialty services
8	Federally funded health clinic	17	Promotion of continuum of care
9	Strong health department		

Town Hall "Community Health Changes and/or Improvements Ranking" cited for Olathe Medical Center's Primary Service Area are as follows:

<b>Olathe Medical Center - Primary Service Area</b>				
<b>Town Hall Community Health Needs Priorities (59 Attendees, 219 votes)</b>				
<b>#</b>	<b>Health Needs to Change and/or Improve</b>	<b>Votes</b>	<b>%</b>	<b>Accum</b>
1	Increase access to bilingual healthcare services / culturally competent providers (deaf, disabilities, other languages).	58	26.5%	26.5%
2	Improve behavioral health access to care (diagnostic, acceptance, funding and placement). Integrate behavioral health into primary care location.	56	25.6%	52.1%
3	Fight child / adult obesity (nutrition and fitness). Increase available and affordable healthy foods to low-income and elderly.	34	15.5%	67.6%
4	Expand affordable senior living options other than nursing homes. Provide affordable nursing home options.	13	5.9%	73.5%
5	Expand healthcare transportation options.	7	3.2%	76.7%
6	Expand summer lunch options for primary service area children.	7	3.2%	79.9%
7	Prevent impaired driving accidents (texting, talking, drinking, etc.).	7	3.2%	83.1%
8	Continue health insurance options education.	7	3.2%	86.3%
Other items receiving votes: Integrated Health Data, Drug Abuse (Rx, Marijuana), Immunizations, Oral Health Services for the Uninsured, Tobacco Cessation, Clinic in Low-Income Areas (West Olathe), Patient-to-Nurse Ratio, Provider Accepting Medicaid, Specialists (Gerontology, Rheumatology), Personal Responsibility in Health, Safety Net for Those in Poverty				

**Key Community Health Needs Assessment Conclusions** from secondary research for Olathe Medical Center's Primary Service Area are as follows:

KS HEALTH RANKINGS: According to the 2015 Robert Wood Johnson County Health Rankings study, Johnson County ranked the highest in the State of Kansas (of 105 counties) in the following health factors, clinical care, social and economic factors and health behaviors.

<b>TAB 1. Demographic Profile</b>
<b>TAB 2. Economic/Business Profile</b>
<b>TAB 3. Educational Profile</b>
<b>TAB 4. Maternal and Infant Health Profile</b>
<b>TAB 5. Hospitalization / Providers Profile</b>
<b>TAB 6. Behavioral Health Profile</b>
<b>TAB 7. Risk Indicators &amp; Factors</b>
<b>TAB 8. Uninsured Profile</b>
<b>TAB 9. Mortality Profile</b>
<b>TAB 10. Preventative Quality Measures</b>

- TAB 1: Johnson County has a population of 574,272 residents as of 2015. 12.7% of Johnson County's population consists of the elderly (65+), and 28.6% percent of these elderly people (65+) are living alone. The percent of Hispanics and Latinos in Johnson County is 7.4%. 22% percent of children in Johnson County live in single-parent

households, lower than the big Kansas norm (average of Butler, Douglas, Johnson, Leavenworth, Reno, Riley, Saline, Sedgwick, Shawnee and Wyandotte Counties) of 31.3%. The percent of people living below the poverty level is 6.5%, lower than the big Kansas norm of 15.4%. The percent of people with limited access to healthy foods is 3.0%, lower than the big Kansas norm of 8.7%.

- TAB 2: Johnson County per capita money income in the past 12 months equals \$38,827. The median value of owner-occupied housing units is \$210,900, higher than the big Kansas norm of \$140,340. The percent of people who are low-income with low access to a grocery store in Johnson County is 2.9%, lower than the big Kansas norm of 8.6%.
- TAB 3: In Johnson County, 19% of students are eligible for the free lunch program, lower than the big Kansas norm of 38.2%. The poverty status by school enrollment is 6%, lower than the big Kansas norm of 12.9%. The percent of persons (25+) with a Bachelor's degree or higher in Johnson County is 51.7%, much higher than the big Kansas norm of 31.8%.
- TAB 4: The percent of births where prenatal care began in the first trimester in Johnson County is 89.1%. The percent of births where the mother smoked during pregnancy is 4.6%, lower than the big Kansas norm of 13.4%. The average monthly WIC participation rate in Johnson County is 9.4%, much lower than the big Kansas norm of 22.7%. 21.1% of births in Johnson County are occurring to unmarried women.
- TAB 5: The ratio of the population in Johnson County to primary care physicians is 1,569. The heart disease hospital admission rate in Johnson County (244) is lower than the big Kansas norm of 289. The congestive heart failure hospital admission rate in Johnson County (184) is higher than the big Kansas norm of 173. The injury hospital admission rate (906) in Johnson County is higher than the big Kansas norm of 890.
- TAB 6: The depression rate for the Medicare population in Johnson County is 15.3%, lower than the big Kansas norm of 17%. The percent of alcohol-impaired driving deaths in Johnson County is 42.7%, higher than the big Kansas norm of 30%.
- TAB 7: The adult obesity rate in Johnson County is 23%, lower than the big Kansas norm of 30.4%. The percent of adults in Johnson County who currently smoke cigarettes is 12.6%, lower than the big Kansas norm of 20.8%. The rate of sexually transmitted infections is 262, lower than the big Kansas norm of 443.2.
- TAB 8: The uninsured adult population rate in Johnson County is 11.9%, lower than the big Kansas norm of 16.8%.
- TAB 9: The age-adjusted years of potential life lost due to traffic injury in Johnson County is 202, much lower than the big Kansas norm of 411. The age-adjusted traffic injury mortality rate in Johnson County is 6 per 100,000, lower than the big Kansas norm of 15 per 100,000. The age-adjusted suicide mortality rate per 100,000 in Johnson County is 14, lower than the big Kansas norm of 17 per 100,000.

- TAB 10: The percent of access to exercise opportunities in Johnson County is 98.3%, higher than the big Kansas norm of 83.3%. The percentage of adults who reported consuming fruit less than one time per day in Johnson County is 34.8%, lower than the big Kansas norm of 44.1%. The percent of diabetic screenings in Johnson County is 88%. The percent of mammography screenings in Johnson County is 68.8%.

### **Key 2015 Community Feedback Conclusions:**

**In late September of 2015, OMC collected stakeholder feedback from their primary service area consumers, community leaders and groups, public and other organizations, and other providers. These stakeholders (N=291) provided the following community feedback insights:**

- 82.5% of OMC primary service area stakeholders would rate the overall quality of healthcare delivery in their community as either Very Good or Good, with Very Good being the highest ranking.
- OMC primary service area stakeholders are satisfied with the following services: Ambulance Services, Dentists, Emergency Room, Eye Doctor/Optomestrist, Hospice, Inpatient Services, Outpatient Services and Pharmacy.
- OMC primary service area stakeholders are not satisfied with the following services: Mental Health Services and Nursing Home.
- 43% of OMC primary service area stakeholders have received healthcare services outside of their community over the past two years.
- OMC primary service area stakeholders perceive the following causes of disease or disability a problem in their community: Drugs/Substance Abuse, Mental Illness, Nutrition, Obesity, Physical Exercise, Poverty, Suicide and Wellness Education.

As seen below, the community still senses a health need for Obesity, Number of Uninsured/Under-insured, Available Mental Health Services, Available and Affordable Healthy Foods and Chronic Disease Management (Heart and Cancer).

<b>Olathe Medical Center (Primary Service Area) - Johnson County, N=291</b>						
From our last Community Health Needs Assessment (2012), a number of health needs were identified as priorities. Are any of these 2012 CHNA needs still an "ongoing problem" in our community?						
Answer Options	Not a Problem Anymore	Somewhat of a Problem	Major Problem	Problem %	Response Count	Most Pressing Rank
Obesity	5	63	134	97.5%	202	1
Number of Uninsured / Under-insured	16	106	79	92.0%	201	4
Available Mental Health Services	18	67	117	91.1%	202	2
Available and Affordable Healthy Foods	31	104	66	84.6%	201	3
Chronic Disease Management (Heart & Cancer)	38	121	38	80.7%	197	5
Senior Services / Activities	51	113	33	74.1%	197	6
Available Healthcare Outcomes Data	54	113	29	72.4%	196	10
Number of Women Getting Mammograms	61	122	12	68.7%	195	9
Additional Health Education Offerings	65	109	25	67.3%	199	8
Low Immunization Rates	66	96	34	66.3%	196	7

# II. Methodology

---

[VVV Consultants LLC]

## II. Methodology

### a) Scope and Purpose

The new federal Patient Protection and Affordable Care Act requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital who has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

#### **JOB #1: Meet/Report IRS 990 Required Documentation**

1. A description of the community served by the facility and how the community was determined;
2. A description of the process and methods used to conduct the CHNA;
3. The identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA;
4. A description of how the organization considered the input of persons representing the community (*e.g., through meetings, focus groups, interviews, etc.*), who those persons are, and their qualifications;
5. A prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
6. A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community that are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (*e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.*).

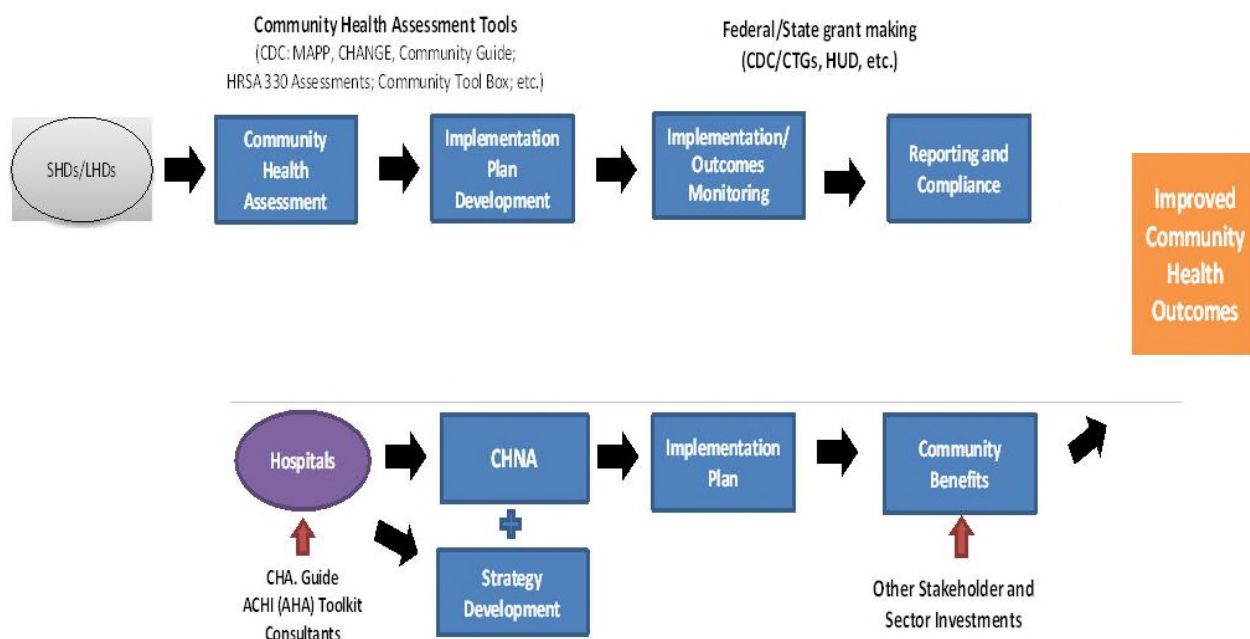

#### **JOB #2: Making a CHNA Widely Available to the Public**

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA "widely available to the public"** after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. *The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

### JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

## **IRS Notice 2011-52 Overview**

### **Notice and Request for Comments Regarding the Community Health Needs Assessment Requirements for Tax-exempt Hospitals**

#### **Applicability of CHNA Requirements to “Hospital Organizations”**

The CHNA requirements apply to “hospital organizations,” which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

#### **How and When to Conduct a CHNA**

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. ***The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public. The CHNA requirements are effective for taxable years beginning after March 23, 2012.*** As a result, a hospital organization with a June 30 fiscal year end must conduct an initial CHNA for each of its hospital facilities by June 30, 2013, either during the fiscal year ending June 30, 2015 or during either of the two previous fiscal years.

#### **Determining the Community Served**

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility's principal functions (e.g., specialty area or targeted disease). *A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).*

#### **Persons Representing the Community Served**

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

## Required Documentation

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

## Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be **“conducted”** in the taxable year that the written report of the CHNA findings is made **widely available to the public**. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA “widely available to the public” after the rules currently in effect for Forms 990. *Accordingly, an organization would make a facility’s written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization’s website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

## How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. **The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it.** A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Under the Notice, an implementation strategy is considered to be **“adopted”** on the date the strategy is approved by the organization’s board of directors or by a committee of the board or other parties legally **authorized by the board to act on its behalf**. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. *This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.*

## Year 2015 - IRS and Treasury Finalize Patient Protection Rules for Tax-Exempt Hospitals

ACCOUNTING TODAY 1/2/15

The Internal Revenue Service and the Treasury Department have issued **final regulations** under the Affordable Care Act to protect patients in tax-exempt hospitals from aggressive debt collection practices and to provide other rules for charitable hospitals.

Under the **final regulations**, each Section 501(c)(3) hospital organization is required to meet four general requirements on a facility-by-facility basis: establish written financial assistance and emergency medical care policies; limit the amounts charged for emergency or other medically necessary care to individuals eligible for assistance under the hospital's financial assistance policy; make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy before engaging in extraordinary collection actions against the individual; and conduct a community health needs assessment, or CHNA, and adopt an implementation strategy at least once every three years. The first three requirements are effective for tax years beginning after March 23, 2010 and the CHNA requirements are effective for tax years beginning after March 23, 2012.

The ACA also added a new Section 4959, which imposes an excise tax for failure to meet the CHNA requirements, and added reporting requirements. These final regulations provide guidance on the entities that must meet these requirements, the reporting obligations relating to these requirements and the consequences for failing to satisfy the requirements. "Charitable hospitals represent more than half of the nation's hospitals and play a key role in improving the health of the communities they serve," wrote Emily McMahon, Deputy Assistant Secretary for Tax Policy at the U.S. Department of the Treasury, in a **blog post** Monday explaining the requirements. "But reports that some charitable hospitals have used aggressive debt collection practices, including allowing debt collectors to pursue collections in emergency rooms, have highlighted the need for clear rules to protect patients. For hospitals to be tax-exempt, they should be held to a higher standard. That is why the Affordable Care Act included additional consumer protection requirements for charitable hospitals, so that patients are protected from abusive collections practices and have access to information about financial assistance at all tax-exempt hospitals."

She noted that as a condition of their tax-exempt status, charitable hospitals must take an active role in improving the health of the communities they serve, establish billing and collections protections for patients eligible for financial assistance, and provide patients with the information they need to apply for such assistance. "These final rules adopt the same framework of proposed regulations but simplify the compliance process for charitable hospitals, while continuing to provide meaningful guidance on protections for patients and requirements to assess community health needs," she added.

Under the new rules, hospitals cannot charge individuals eligible for financial assistance more for emergency or other medically necessary care than the amounts generally billed to patients with insurance (including Medicare, Medicaid, or private commercial insurance). In addition, every tax-exempt hospital must establish and widely publicize a financial assistance policy that clearly describes to patients the eligibility criteria for obtaining financial assistance and the method for applying for financial assistance.

Charitable hospitals are also prohibited from engaging in certain collection methods (for example, reporting a debt to a credit agency or garnishing wages) until they make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy.

In addition, each charitable hospital need to conduct and publish a community health needs assessment at least once every three years and disclose on the tax form that it files on an annual basis the steps it is taking to address the health needs identified in the assessment.

Many of the requirements have been in place since the Affordable Care Act passed in 2010, but in response to comments on the proposed regulations, the final rules also expand access to translations for patients, by lowering the threshold for having translations of financial assistance policies available from 10 percent of the community served as proposed, to five percent of the community served or population expected to be encountered by the hospital facility, or 1000 persons, whichever is less, according to McMahon. "The final rules also revise the notification requirements to maintain important protections for patients while making it easier for hospitals to comply with them," she wrote. "General notifications regarding a hospital's financial assistance policy must appear on bills and in the hospital. However, individual written and oral notifications of the hospital's financial assistance policy are now only required when a hospital plans to use extraordinary collections actions, such as reporting a debt to a credit bureau, selling the debt to a third party or garnishing wages."

While charitable hospitals must continue to make a good-faith effort to comply, the rules provide charitable hospitals with time to fully update their policies and programming to implement the changes. But if a charitable hospital fails to meet the consumer protection provisions required by the law, the hospital could have its tax-exempt status revoked. If a hospital fails to properly conduct a community health needs assessment or adopt an implementation strategy, an excise tax will apply, McMahon noted. "However, if a hospital fails to meet a requirement, but the failure is neither willful nor egregious, the hospital can correct and publicly disclose the error to have it excused, thus avoiding revocation of tax-exempt status, but the excise tax would still apply," she wrote.

## **II. Methodology**

### **b) Collaborating CHNA Parties**

Working together to improve community health takes collaboration. Listed below is an in-depth profile of the local hospital, health department CHNA partners:

#### **Olathe Medical Center Profile**

**20333 West 151st St, Olathe, Kansas 66061**  
**President/CEO: Frank H. Devocelle**

**About Us:** For more than 60 years, Olathe Medical Center has expanded its services to meet the growing needs of the community. Today, Olathe Medical Center is located at Olathe Medical Park, one of the largest hospital campuses in the Midwest - a nearly 250-acre campus at 151st Street and I-35 in southern Johnson County. The five-story acute-care medical center is licensed for 300 beds and averages more than 44,000 patient care days per year. Its emergency care center is one of the busiest in the region, with more than 42,000 patients treated annually.

The not-for-profit medical center and its network of practicing physicians specialize in nearly every area of medicine. Olathe Medical Park houses several centers of excellence, including Olathe Medical Center's Kansas Cardiovascular Center, Olathe Regional Oncology Center, The Birth Place and The Kansas Joint Specialty Center. What began in 1953 as a 30-bed hospital has become a regional medical center.

**History:** More than six decades ago, local founders of Olathe Health System envisioned a responsive and responsible healthcare provider to the families in our communities, a continuum of compassionate, competent care that would span every stage of life.

This indigenous healthcare startup thrived in native soil, growing from a modest 30-bed hospital in 1953 to a vital regional health network today that serves four counties through Olathe Medical Center, Miami County Medical Center, the 37 family care and specialty clinics of Olathe Medical Services, and a roster of more than 300 physicians and 2,500 employees.

Today, the Olathe Health System purpose remains steadfast: respond to our communities, their families and their healthcare demands with the highest possible level of medical professionalism, advanced technology, and professional care.

Remaining independent and locally owned in today's prevailing trend to healthcare conglomerates requires deeply rooted sensibilities and an unwavering dedication to the healing arts. These qualities drive the Olathe Health System commitment to be the heart of high-tech care. This is the promise that shapes every decision, every action, every day.

**Mission:** Olathe Health System is focused on improving the health of all individuals in the communities we serve by providing compassionate, quality healthcare in an environment of trust and collaboration.

**Vision:** Olathe Health System is committed to be the premier healthcare provider and employer throughout the communities we serve.

**Olathe Medical Center offers** the following services to its community:

Allergy & Asthma	Nephrology
Arthritis & Rheumatology	Neurology
Bariatric Surgery (Weight Loss)	Neurosurgery
Blood Disorders (Hematology)	Obstetrics/Gynecology
Breast Care	Ophthalmology
Cancer Care (Oncology)	Orthopedics & Sports Medicine
Cardiac and Pulmonary Rehab	Pain Management
Cardiovascular Care (Heart)	Pediatrics
Critical / Intensive Care	Physical Medicine and Rehabilitation
Dermatology	Plastic & Reconstructive Surgery
Diabetes Care	Podiatry
Doctors Who Deliver Babies	Pulmonology
Ear, Nose & Throat (Otolaryngology)	Radiation Oncology
Emergency Medicine	Radiology
Endocrinology	Rehabilitation Services (Physical Therapy,
Family Medicine	Occupational Therapy, Speech-Language
Gastroenterology	Pathology)
Hand Surgery	Sinus Care
Hematology	Sleep Disorders
Home Healthcare	Stroke Care
Hospice	Surgery
Infectious Disease	Urgent Care
Infertility (Reproductive Endocrinology)	Urology
Internal Medicine	Vascular Surgery
Joint Replacement	Vein Care Center
Laboratory	Women's Health
Mammography	Wound Care and Hyperbaric Medicine
Migraine Surgery	

## **Johnson County Department of Health and Environment (JCDHE)** **Profile**

**111 S Cherry St, Olathe, KS 66061**

**Director: Lougene Marsh**

Public health is one of the most important services JCDHE provides the residents of Johnson County.

**The Johnson County Department of Health and Environment is comprised of six divisions:** Business Operations Services, Child Care Licensing, Disease Containment, Environmental, Health Services, and Community Health.

**Services include:** immunizations, communicable disease surveillance, TB testing, refugee health testing, prenatal, WIC, reproductive health, STD screening, HIV testing, child care facilities' licensure, child care provider education classes, health education classes, workshops & trainings, injury prevention activities (Safe Kids Johnson County), chronic disease risk reduction activities, and community wellness activities.

**Programs include:** Outreach Nurse, Public Health Emergency Program, Targeted Case Management, Making a Difference, Air Quality, Household Hazardous Waste, Solid Waste Management, On-site Sewage Treatment, Ozone Reduction and Pool Inspections. JCDHE is also a Continuing Nursing Education Provider.

**Services are provided at three sites:** 11875 S. Sunset Drive, Olathe (Health Services Center); 11811 S. Sunset Drive, Olathe (Sunset Building); and 6000 Lamar Ave., Mission (Northeast Office Building).

**Department Vision:** The innovative leader for community health and environmental protection.

**Department Mission:** To protect the health and environment, prevent disease and promote wellness for all who live, work and play in Johnson County through exceptional public service.

---

##### **Principal Consultant and Owner of VVV Consultants LLC**

VVV Consultants LLC was incorporated on May 28th, 2009. With over 30 years of business and faculty experience in helping providers, payors and financial service firms obtain their strategic planning and research and development needs, Vince brings in-depth health industry knowledge, research aptitude, planning expertise and energy. VVV Consultants LLC services are organized, formal processes of listening to the voice of the customer. Vince started his consulting business after working for Saint Luke's Health System (SLHS) of Kansas City for 16 years. *(Note: Saint Luke's Hospital of Kansas City, SLHS's largest hospital, won the Malcolm Baldrige National Quality Award in March of 2003. The Baldrige examiners cited Vince's department as "Best Practice" in the areas of customer satisfaction, market research and evaluation efforts <Kansas City Star 3/10/04>).*

**VVV Consultants LLC** consultants have in-depth experience helping hospitals work with local health departments to engage community residents and leaders to identify gaps between existing health community resources and needs and construct detailed strategies to meet those needs, while still adhering to the hospital's mission and budget. Over the past 20 years, Vandehaar has completed eight comprehensive Baldrige aligned Community Health Needs Assessments for Saint Luke's of Kansas City System facilities (3 campuses) and was contracted to conduct two additional independent department of health consulting projects (prior to IRS 990 regs). To date, VVV has completed 55 CHNA IRS-aligned assessments for Iowa, Kansas, Missouri and Nebraska hospitals and health departments.

Vince Vandehaar, MBA is actively involved in the Kansas City community. He is a member the Greater Kansas City Employee Benefits Association, the Society for Healthcare Strategy and Market Development, the American Marketing Association Kansas City Chapter and Co-Chair of the AMA Kansas City Healthcare Special Interest Group. In addition to these roles, from 2000 to 2008, Vince served as the state chairman for MHA's Data Committee and was a member of KHA's Data Taskforce.

Associate Consultant

## **II. Methodology**

### **c) CHNA and Town Hall Research Process**

Olathe Medical Center's (OMC) Community Health Needs Assessment process began in the spring of 2015. At that time, an inquiry was made by Mike Jensen, Vice President of Marketing and External Affairs for Olathe Health System, to VVV Consultants LLC to explore the possibility of conducting a comprehensive IRS-aligned CHNA. On that date, VVV Consultants LLC reviewed: VVV Consultants LLC's CHNA experience, CHNA requirements (in-depth regulations), CHNA development steps/options to meet IRS requirements and next steps after option approval.

#### **VVV CHNA Deliverables:**

- Uncover/document basic secondary research and health of county, organized by 10 TABS.
- Conduct Town Hall meeting to discuss secondary data and uncover/prioritize county health needs.
- Conduct and report CHNA primary research.
- Prepare and publish IRS-aligned CHNA report to meet requirements.

Olathe Medical Center CHNA Work Plan			
Project Timeline & Roles 2015			
Step	Date (Start-Finish)	Lead	Task
1	4/26/2015	VVV	Sent VVV quote for review.
2	5/22/2015	Hosp	Select CHNA Option A/B/C. Approve and sign VVV CHNA quote.
3	8/31/2015	VVV	Send out REQCommInvite Excel file. Hospital and health department to fill in primary service area stakeholder names, addresses and e-mails.
4	8/31/2015	VVV	Request hospital client to send KHA PO Reports (PO101 and PO103) to document primary service area for FFY 12, 13 and 14. In addition, request hospital to complete three year historical primary service area IP/OP/ER/clinic patient origin file (use ZipPSA_3yrPOrigin.xls).
5	On or before 9/7/2015	VVV	Prepare CHNA Round#2 stakeholder feedback online link. Send text link for hospital review.
6	On or before 9/7/2015	VVV / Hosp	Prepare and send out PR story to local media announcing upcoming CHNA work (general story). Hospital to place.
7	9/14/2015	VVV	Launch and conduct online survey to stakeholders. Hospital will e-mail invite to participate to all stakeholders.
8	9/14/2015	VVV / Hosp	Prepare and send out PR story to local media announcing online CHNA Round #2 feedback survey. Request public to participate.
9	On or before 10/5/2015	VVV	Assemble and complete secondary research. Find and populate 10 tabs. Create Town Hall PowerPoint for presentation.
10	10/5/2015	Hosp	Prepare and send out community Town Hall invite letter and place local advertisement.
11	10/5/2015	VVV / Hosp	Prepare and send out PR story to local media announcing upcoming Town Hall. VVV will mock up PR release to media sources.
12	On or before 10/12/2015	All	Conduct conference call (time TBD) with hospital/health department to review Town Hall data and flow.
13	10/20/2015	VVV	Conduct CHNA Town Hall. Breakfast 7-8:30am at the Olathe Health Education Center. Review and discuss basic health data plus rank health needs.
14	On or before 11/30/2015	VVV	Complete analysis. Release draft one and seek feedback from leaders (hospital and health department).
15	On or before 12/31/2015	VVV	Produce and release final CHNA report. Hospital will post CHNA online.
16	On or before 12/31/2015	Hosp	Conduct client implementation plan PSA leadership meeting.
17	30 days prior to end of hospital fiscal year	Hosp	Hold board meetings discuss CHNA needs, create and adopt an implementation plan. Communicate CHNA plan to community.

To meet IRS-aligned CHNA requirements, a four-phase methodology was reviewed and approved as follows:

**Phase I—Discovery:**

Conduct a 30 minute conference call with the CHNA hospital client and county health department. Review/confirm CHNA calendar of events, explain/coach client to complete required participants database and schedule/organize all Phase II activities.

**Phase II—Qualify Community Need:**

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use Kansas Hospital Association (KHA), Vital Statistics, Robert Wood Johnson County Health Rankings, etc. to document current state of county health organized as follows:

<b>TAB 1. Demographic Profile</b>
<b>TAB 2. Economic/Business Profile</b>
<b>TAB 3. Educational Profile</b>
<b>TAB 4. Maternal and Infant Health Profile</b>
<b>TAB 5. Hospitalization / Providers Profile</b>
<b>TAB 6. Behavioral Health Profile</b>
<b>TAB 7. Risk Indicators &amp; Factors</b>
<b>TAB 8. Uninsured Profile</b>
<b>TAB 9. Mortality Profile</b>
<b>TAB 10. Preventative Quality Measures</b>

B) Gather historical primary research to uncover public health needs, practices and perceptions for hospital primary service areas.

**Phase III—Quantify Community Need:**

Conduct a 90 minute Town Hall meeting with required county primary service area residents. At each Town Hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community health needs will be administered.

**Phase IV—Complete Data Analysis and Create Comprehensive Community Health Needs Assessment:**

Post CHNA report findings to meet IRS-aligned CHNA criteria.

After consideration of CHNA stakeholders (sponsoring hospital and local health department), the CHNA Option C was selected with the following project schedule:

Phase I: Discovery.....	August 2015
Phase II: Secondary / Primary Research.....	Sept-Oct 2015
Phase III: Town Hall Meeting.....	October 20, 2015
Phase IV: Prepare / Release CHNA report.....	December 2015

Detail CHNA Development Steps Include:

<b>Steps to Conduct Community Health Needs Assessment</b>	
	<b>Development Steps</b>
<b>Step # 1 Commitment</b>	<i>Determine interest level of area healthcare leaders (Hospital, Health Dept, Mental Health Centers, Schools, Churches, Physicians etc), hold community meeting.</i>
<b>Step # 2 Planning</b>	<i>Prepare brief Community Health Needs Assessment Plan - list goals, objectives, purpose, outcome, roles, community involvement, etc. Hold Community Kick-off meeting.</i>
<b>Step # 3 Secondary Research</b>	<i>Collect &amp; Report Community Health Published Facts. Gather data health practice data from published secondary research sources i.e. census, county health records, behavioral risk factors surveillance, etc.</i>
<b>Step # 4a Primary Research</b>	<i>Conduct Community Roundtable (Qualitative Research). Review Secondary Research (Step3) with Community Stakeholders. Gather current opinions and identify health needs.</i>
<b>Step # 4b Primary Research &lt;Optional&gt;</b>	<i>Collect Community Opinions. (Quantitative Research). Gather current opinions (Valid sample size) regarding community health needs and healthcare practices. If appropriate, conduct Physician Manpower Assessment to determine FTE Physician need by specialty.</i>
<b>Steps # 5 Reporting</b>	<i>Prepare/Present comprehensive Community Health Needs Assessment report (to community leaders) with Recommended Actions to improve health. &lt; Note: Formal report will follow IRS Notice 2011-52 regs &gt;</i>
VVV Research & Development, LLC 913 302-7264	

## Overview of Town Hall Community Priority Setting Process

Each community has a wealth of expertise to be tapped for CHNA development. For this reason, a Town Hall is the perfect forum to gather community insight and provide an atmosphere to objectively consensus build and prioritize county health issues.

All Town Hall priority-setting and scoring processes involve the input of key stakeholders in attendance. Individuals and organizations attending the Town Halls were critically important to the success of the CHNA. The following list outlines partners invited to Town Hall: local hospital, public health community, mental health community, free clinics, community-based clinics, service providers, local residents, community leaders, opinion leaders, school leaders, business leaders, local government, faith-based organizations and persons (or organizations serving them), people with chronic conditions, uninsured community members, low income residents and minority groups.

Olathe Medical Center's Town Hall was held on Tuesday, October 20th, 2015 at Olathe Health Education Center. Vince Vandelaar and Alexa Backman facilitated this 1 ½ hour session with fifty-nine (59) attendees. (Note: a detail roster of Town Hall attendees is listed in Section V a).

The following Town Hall agenda was conducted:

1. Welcome and introductions.
2. Review purpose for the CHNA Town Hall and roles in the process.
3. Presentation/review of historical county health indicators (10 tabs).
4. Facilitate Town Hall participant discussion of data (probe health strengths/concerns). Reflect on size and seriousness of any health concerns cited and discuss current community health strengths.
5. Engage Town Hall participants to rank health needs (using four dots to cast votes on priority issues). Tally and rank top community health concerns cited.
6. Close meeting by reflecting on the health needs/community voting results. Inform participants on next steps.

At the end of each Town Hall session, VVV encouraged all community members to continue to contribute ideas to both hospital and health department leaders via e-mail or personal conversations.

(NOTE: To review detailed Town Hall discussion content, please turn to Section V for detailed notes of session and activity card content reporting of open-end comments).

## Community Health Needs Assessment (CHNA) Town Hall Discussion Agenda

- I. Opening / Introductions (10 mins)
- II. Review CHNA Purpose and Process (10 mins)
- III. Review Current County "Health Status" –  
Secondary Data by 10 Tab Categories  
Review Community Feedback Research (35 mins)
- IV. Collect Community Health Perspectives  
Hold Community Voting Activity: Determine  
MOST Important Health Areas (30 mins)
- I. Close / Next Steps (5 mins)

VVV Marketing & Development, LLC

## I. Introduction: Background and Experience

**Vince Vandehaar, MBA**  
VVV Marketing & Development, LLC Principal Consultant  
Olathe, KS (913) 302-7264

- Professional Consulting Services: Strategic Planning, Marketing Management, Business Research & Development
- Focus: Strategy, Research, Deployment
- Over 25 years of experience with Tillinghast, BCBSKC, Saint Luke's

**Adjunct Professor - Marketing / Health Admin, 26 years +**

- Webster University (1988 – present)
- Rockhurst University (2010 – present)

*Alexa Backman, MBA, Business Development Manager*

## Town Hall Participation (You)

- ALL attendees welcome to share.
  - Parking Lot
- There are no right or wrong answers.
- Only one person speaks at a time.
- Please give truthful responses.
- Have a little fun along the way.

## I. Introductions: A Conversation with the Community

Community members and organizations invited to CHNA Town Hall

**Consumers:** Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

**Community leaders and groups:** The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs -- Chamber of Commerce, veterans' organizations, Lions, Rotary, etc., Representatives from businesses -- owners/CEO's of large businesses (local or large corporations with local branches), Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials, Foundations, United Way organizations. And other "community leaders."

**Public and other organizations:** Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Welfare and social service agency staff, Housing advocates - administrators of housing programs: homeless shelters, low-income family housing and senior housing, Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

**Other providers:** Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

## II. Purpose: Why Conduct Community Health Needs Assessment?

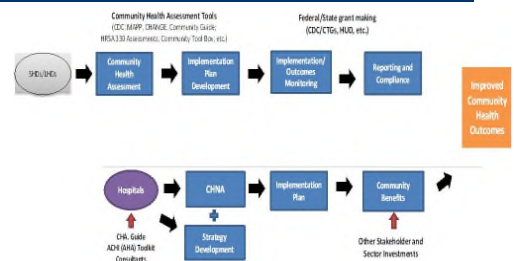

- To determine health-related trends and issues of the community. Revisit 2012 needs.
- To understand and evaluate health delivery programs in place.
- To develop strategies to address unmet health needs. (After Town Hall).
- To meet Federal requirements—both local hospital and health department.

## II. Review CHNA Definition

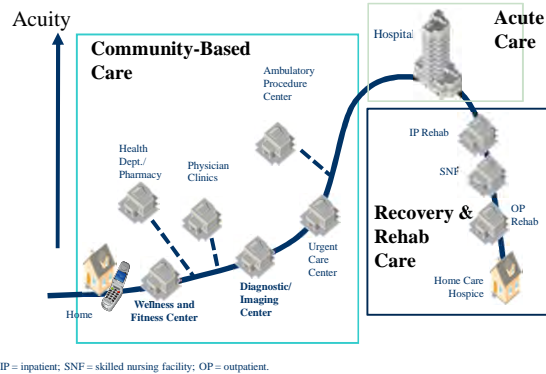

A Community Health Needs Assessment (CHNA) is a systematic collection, assembly, analysis, and dissemination of information about the health of the community. (NOTE: Some the data has already been collected (published) by local, state and federal public health organizations. Priorities will be collected today).

CHNA's role is to identify factors that affect the health of a population and determine the availability of resources to adequately address those factors.

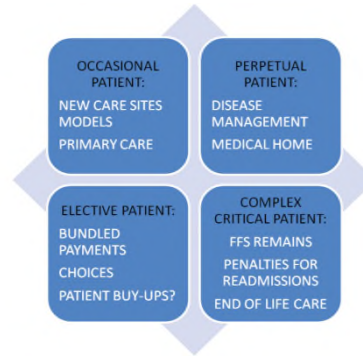

## Community Health Needs Assessment Joint Process: Hospital and Health Department

## Future System of Care—Sg2

## Patient Types

## II. Required Written Report IRS 990 Documentation

- a description of the community served
- a description of the CHNA process
- the identity of any and all organizations & third parties which collaborated to assist with the CHNA
- a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications
- a prioritized description of all of the community needs identified by the CHNA and
- a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

## Historical Needs—Last CHNA

Johnson County, KS (OMC PSA) Town Hall Community Health Needs Priorities N=40				
#	Healthcare Topics Cited to Either Change or Improve	Votes	%	Accum
1	Obesity Increasing	22	15.3%	15.3%
2	Need for Mental Health Services	19	13.2%	28.5%
3	Uninsured, Underinsured, Charity Care too High	19	13.2%	41.7%
4	Need for Additional Health Education Offerings	14	9.7%	51.4%
5	Chronic Disease Management (Heart and Cancer)	10	6.9%	58.3%
6	Additional Senior Activities / Services	9	6.3%	64.6%
7	Availability and Affordability of Healthy Food	6	4.2%	68.8%
8	Funding of Healthcare	6	4.2%	72.9%
9	Reporting	4	2.8%	75.7%
10	Encourage / Increase Mammographies	4	2.8%	78.5%
11	Achieve Higher Immunization Rates	4	2.8%	81.3%
12	Access to Outcomes Data	4	2.8%	84.0%

Note: Johnson County Department of Health and Environment Community Health Improvement Plan YR 2011 Priorities: 1) Physical Activity / Nutrition, 2) Access to Healthcare and 3) Substance Abuse / Mental Health. Other Town Hall Items receiving votes: Tobacco/Alcohol, Walkable Streets, Dental Uninsured, Domestic Violence, Substance Abuse, Home Care, PCPs for Aging Population, Transportation, Self Care Programs and Specialist Appointments.

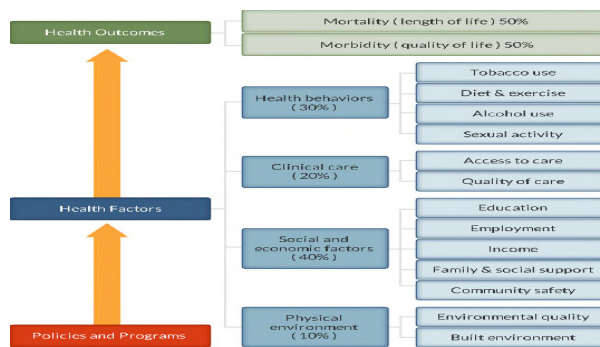

### III. Review Current County “Health Status”

Secondary Data by 10 TAB Categories, Plus KS State Rankings

TAB 1. Demographic Profile
TAB 2. Economic/Business Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospitalization / Providers Profile
TAB 6. Behavioral Health Profile
TAB 7. Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

### County Health Rankings

Robert Wood Johnson Foundation and University of WI Health Institute

### IV. Collect Community Health Perspectives

Ask your opinion. Your thoughts?

- 1) **Tomorrow:** What is occurring or might occur *that would affect the “health of our community?”*
- 2) **Today:** What are the *strengths* of our community that contribute to health?
- 3) **Today:** Are there healthcare services in your community / neighborhood that you feel *need to be improved and / or changed?*

# **III. Community Health Status**

---

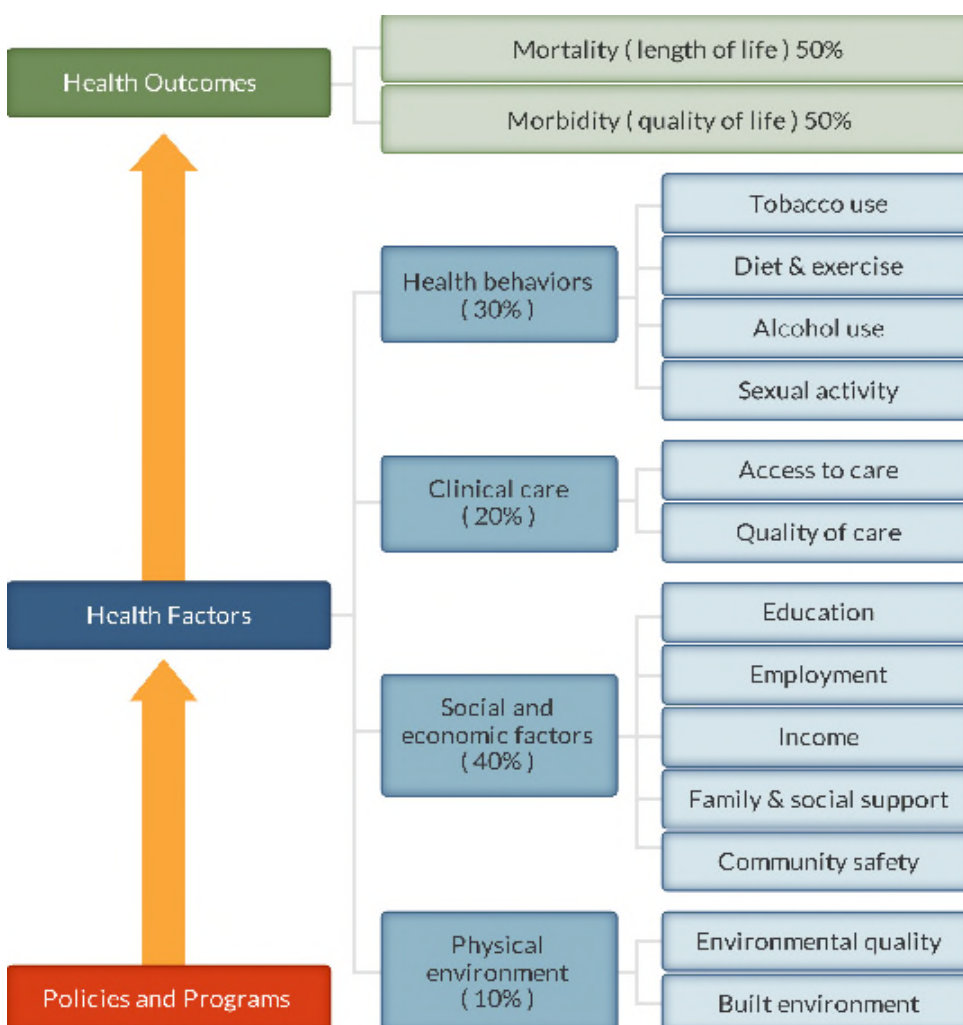

[VVV Consultants LLC]

### III. Community Health Status

#### a) Historical Health Statistics

#### Health Status Profile

This section of the CHNA reviews published quantitative community health indicators and results of our recent CHNA Town Hall. To produce this profile, VVV Consultants LLC staff analyzed data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 tabs), results from the 2015 County Health Rankings and conversations from Town Hall primary research. ***Each table reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.*** <Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below in model, these rankings are based on a number of health factors.>

County Health Rankings model ©2012 UWPHI

## Secondary Research

### 2015 State Health Rankings for Johnson County, KS

#	KANSAS 2015 COUNTY HEALTH RANKINGS (105 COUNTIES)	DEFINITIONS	JOHNSON CO 2015	TREND	MIAMI CO 2015	BIG KS NORM (10)
1	Physical Environment	Environmental Quality	44		80	64
2	Health Factors		1		29	43

## Community Feedback Research

For CHNA Round #2, it also important to gather community perspective from key stakeholders on their views of progress to address baseline CHNA needs documented three years ago. Below are findings of this online community primary research:

### Question 1—Overall Quality Ranking

Olathe Medical Center (Primary Service Area) - Johnson County, N=291						
1. Three years ago, a Community Health Needs Assessment was completed. This assessment identified a number of health needs for our community. Today, we are updating this assessment and would like to know how you rate the "Overall Quality" of healthcare delivery in our community?						
Answer Options	Very Good	Good	Fair	Poor	Very Poor	Valid N
Johnson County N=292	88	152	45	5	1	291
Top 2 Boxes (Very Good / Good)	82.5%					
KS Stakeholders Round #2	406	835	274	37	10	1562
Top 2 Boxes (Very Good / Good)	79.4%					

### Questions 5 & 6—Community Ranking of Healthcare Services 2015

Olathe Medical Center (Primary Service Area) - Johnson County, N=291			
5. How would our community rate each of the following ?	KS Stakeholders Round #2 Bottom 2 Boxes	Johnson Co N=291	TREND
Ambulance Services	3.5%	1.7%	
Child Care	16.9%	8.9%	
Chiropractors	6.0%	8.1%	
Dentists	14.1%	3.8%	
Emergency Room	4.9%	4.9%	
Eye Doctor / Optometrist	6.4%	2.1%	
Family Planning Services	15.0%	9.2%	
Home Health	12.8%	7.1%	
Hospice	8.8%	4.9%	
Inpatient Services	3.5%	2.2%	
Mental Health Services	29.7%	44.4%	
Nursing Home	12.6%	16.3%	
Outpatient Services	2.6%	3.3%	
Pharmacy	2.8%	2.7%	
Primary Care	5.2%	6.5%	
Public Health Department	3.4%	9.0%	
School Nurse	7.0%	7.7%	
Visiting Specialists	7.5%	8.5%	

### Question 7—Receiving Healthcare Services Outside our Community

Olathe Medical Center (Primary Service Area) - Johnson County, N=291			
7. Over the past 2 years, did you or do you know someone who received health care services outside of our community?	KS Stakeholders Round #2 Bottom 2 Boxes	Johnson Co N=291	TREND
Yes	78.6%	43.0%	
No	12.9%	40.9%	
Don't know	8.6%	16.1%	
TOTALS	100.0%	100.0%	

### Question 8—Requested Discussion Items for Town Hall Agenda

Olathe Medical Center (Primary Service Area) - Johnson County, N=291			
8. Are there any other health needs that we need to discuss at our upcoming CHNA Town Hall meeting?	KS Stakeholders Round #2 Bottom 2 Boxes	Johnson Co N=291	TREND
Abuse / Violence	4.8%	4.9%	
Alcohol	5.0%	3.3%	
Cancer	5.7%	4.6%	
Diabetes	4.9%	4.6%	
Drugs / Substance Abuse	7.4%	5.8%	
Family Planning	2.8%	2.8%

Johnson County Community Health Needs Assessment Meeting  
10.20.15  
n=59

#### Representatives in the Room

- Parents
- People who are caring for elderly persons in their home
- Chamber of Commerce
- Elected officials (Board of Education, County Commissioner)
- Nurses
- Doctors (Pediatrics and Internal Medicine)
- Ministerial
- Schools
- 11 members of the deaf community
- No Veterans

#### County Health Rankings

- Physical environment factors here: Sidewalks, parks, etc.

#### TAB 3: Educational Profile

- Screenings are happening all throughout years in schools.

#### TAB 4: Maternal and Infant Profile

- Johnson County WIC says numbers are low because we make too much money and get disqualified, or have to compete with food stamps.

#### TAB 7: Risk Indicators/Factors Profile

- Obesity percentage has come down 1% since 2012 CHNA Town Hall.

#### TAB 8: Uninsured Profile

- Uninsured rate isn't zero because "we didn't expand Medicaid in Kansas."

#### TAB 9: Mortality Profile

- Atherosclerosis is the only cause of death much higher in Johnson County than the state mix.

#### TAB 10: Preventive Quality Profile

- Doctors in the room want the community to get flu shots, should be closer to 100%.
- Percent of adults consuming fruit less than once a day is much lower in Johnson County compared to Kansas and the Big Kansas Norm.

### Community Survey

- 98% of survey respondents still think Obesity is a problem and ranked it as the most pressing need.
- Mental Health Services and Nursing Home came back with a dissatisfied rating from survey respondents.
- Abuse/Violence, Drug/Substance Abuse, Mental Illness, Nutrition, Obesity, Physical Exercise, Poverty, Teen Pregnancy and Wellness Education came back as health needs that need to be discussed in the Town Hall.

### STRENGTHS

- Community participation in improving health
- Sufficient availability of primary care
- Wealth of community
- Access to fitness centers/opportunities for exercise
- Quality recreational environment
- Collaboration between health agencies
- Strong community leadership
- High education level
- Availability of healthcare services
- Commitment to health in schools
- Available health education
- Low morbidity and mortality rates
- Charitable hospital
- Range of specialty services
- Federally funded health clinic
- Promotion of continuum of care
- Strong health department

### WEAKNESSES

- Behavioral health (access, acceptance/understanding, funding, placement)
- Behavioral health providers
- Available, affordable healthy eating for low income and elderly, leading to healthy lifestyles
- Drug abuse (Rx, marijuana)
- Alcohol abuse
- Oral health for the uninsured
- Personal responsibility for health
- Tobacco cessation
- Summer lunch options for kids
- Affordable senior living options
- Specialists (gerontology, rheumatology)
- Access to healthcare transportation
- Pharmaceutical costs
- Consumer health plan education

- Patient to nurse ratio
- Improved integrated health data
- Enhanced safety net for those in poverty/uninsured
- Impaired driving accidents
- Providers accepting Medicaid
- Healthcare services for teens
- Child/adult obesity (nutrition and fitness)
- Lack of clinic in low income areas (West Olathe)
- Integrated behavioral health into primary care
- Improve immunizations
- Healthcare options/understanding for deaf community
- Affordable nursing home options
- Access to bilingual healthcare services/culturally competent providers (deaf, disabilities, other languages)

---

### **Olathe Medical Center Invites Community to Provide Input about Healthcare Needs**

**OLATHE, KAN. (September 21, 2015)** – Olathe Medical Center (OMC) is seeking input from community members about the healthcare needs in southern Johnson County. All community residents and business leaders are encouraged to fill out a short online survey at [https://www.surveymonkey.com/r/OMC\\_2015](https://www.surveymonkey.com/r/OMC_2015) by Oct. 12. In addition, you are invited to attend a Town Hall meeting from 7:30 - 9 a.m. on Tuesday, Oct. 20 at the Olathe Health Education Center, 21201 W. 152nd St. in Olathe, to discuss this topic with representatives from OMC and other community health providers. Breakfast will be provided.

"The health of our community is a priority for our entire health system," Frank H. Devocelle, President/CEO of Olathe Health System, said. "We hope the community will take advantage of this opportunity to provide input into the future of healthcare delivery in our county."

The information discussed at the Town Hall will be part of a final public report, called the Johnson County Community Health Needs Assessment (JCCHNA). This report is an update to the JCCHNA completed in 2012 and will provide guidance to address the county's healthcare needs. The goal of this report is to help OMC understand its progress in addressing community health needs cited in the 2012 report and to collect up-to-date community health perceptions.

~more~

OMC executed several projects based on the healthcare needs cited in the 2012 report, including:

- Partnering with Johnson County Park and Recreation District to create a free, outdoor fitness park at Heritage Park in Olathe,
- Working with the Olathe Fire Department to implement a non-emergency Mobile Healthcare Vehicle that responds to non-emergency situations and follow up with people who are unlikely to comply with physician instructions, and
- Assisting uninsured patients in navigating and obtaining insurance coverage through the Health Insurance Marketplace.

The full version of OMC's 2012 Community Health Needs Assessment and 2014-2016 Community Health Improvement Plan can be found at [olathehealth.org/community](http://olathehealth.org/community).

We value your input and hope you take the short survey and join us at the upcoming Town Hall. If you have any questions about CHNA activities, please call 913-791-4311.

###

**From:** CEO

**Date:** September 9<sup>th</sup>, 2015

**To:** Community Leaders, Providers, Hospital Board and Staff

**Subject:** CHNA Round #2 Online Survey 2015

**Olathe Medical Center** is partnering with other community health providers to update the 2012 Community Health Needs Assessment. (*Note:* This assessment update is a follow-up to meet final IRS regulations released on 01/02/2015, requiring all 501(c)(3) hospitals to conduct a Community Health Needs Assessment and adopt an implementation strategy at least once every three years).

Your feedback and suggestions regarding community health delivery are very important to collect in order to complete the 2015 Community Health Needs Assessment and implementation plan updates.

To accomplish this work, a short online survey has been developed:

[https://www.surveymonkey.com/r/OMC\\_2015](https://www.surveymonkey.com/r/OMC_2015)

**CHNA Round #2 due date for survey completion is Monday, October 12<sup>th</sup>, 2015.** All responses are confidential. Thank you in advance for your time and support in participating with this important request.

Sincerely,  
Frank Devocelle  
CEO

# Community Health Needs Assessment

## Johnson County, KS Community Town Hall Meeting

Olathe Medical Center  
and Johnson County Public Health  
will be hosting a  
Town Hall Meeting on October 20th, 2015  
from 7:00 to 8:30 a.m.  
at the Olathe Health Education Center

Public is invited to attend.  
A light breakfast will be provided.

Please join us for this opportunity to share your opinions  
and suggestions to improve health care delivery  
in Johnson County, KS.

**Thank you in advance for your participation.**

Dear Community Member:

Olathe Medical Center (OMC) is seeking input from community members about the healthcare needs in southern Johnson County. All community residents and business leaders are encouraged to fill out a short online survey at **[https://www.surveymonkey.com/r/OMC\\_2015](https://www.surveymonkey.com/r/OMC_2015)** by Oct. 12.

In addition, you are invited to attend a Town Hall meeting from 7:30 - 9 a.m. on Tuesday, Oct. 20 at the Olathe Health Education Center, 21201 W. 152nd St. in Olathe, to discuss this topic with representatives from OMC and other community health providers. Breakfast will be provided.

The information discussed at the Town Hall will be part of a final public report, called the Johnson County Community Health Needs Assessment (JCCHNA). This report is an update to the JCCHNA completed in 2012 and will provide guidance to address the county's healthcare needs. The goal of this report is to help OMC understand its progress in addressing community health needs cited in the 2012 report and to collect up-to-date community health perceptions.

We look forward to talking with you, and thank you for your participation!

Frank H. Devocelle  
President/CEO  
Olathe Health System

*Please Note: You might be contacted by other local health organizations also gathering community health needs information, such as the Johnson County Department of Health and Environment. We encourage you to participate in all health needs assessments. Thank you!*

# Community Health Needs Assessment

## Round #2 Community Feedback

### Methodology

A community feedback survey was created on behalf of the CHNA client to gather primary service area stakeholder feedback on health perception and progress in addressing previous CHNA community needs. All community residents were encouraged to take the survey online by entering the following address into personal browser:

[https://www.surveymonkey.com/r/OMC\\_2015](https://www.surveymonkey.com/r/OMC_2015). In addition, an invite letter was sent to all primary service area stakeholders (i.e. Schools, County, City, Clergy, Public Health Leaders).

Below is a summary of public response:

Olathe Medical Center (Primary Service Area) - Johnson County, N=291

## Olathe Medical Center CHNA - Let Your Voice Be Heard!

Olathe Medical Center is updating its Community Health Needs Assessment in partnership with other area health providers. Feedback from this survey will identify current health issues in our community. Participation is voluntary and all answers will be kept confidential.

All CHNA Round #2 feedback is due by Monday, October 12th. Thank you for your participation.

### Part I: Introduction

**1. Three years ago, OMC completed a Community Health Needs Assessment. This assessment identified a number of health needs for our community. Today, we are updating this assessment and would like to know how you rate the "Overall Quality" of healthcare delivery in our community?**

	Very Good	Good	Fair	Poor	Very Poor
Health Rating	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**2. Reflecting today, are there healthcare issues (services) in your community / neighborhood that you feel need to be improved and/or changed? (Please be specific).**

**3. From our last Community Health Needs Assessment (2012), a number of health needs were identified as priorities. Are any of these 2012 CHNA needs still an "ongoing problem" in our community?**

	Not a Problem Anymore	Somewhat of a Problem	Major Problem
Obesity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Available and Affordable Healthy Foods	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Available Mental Health Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Number of Uninsured / Under-insured	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Additional Health Education Offerings	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chronic Disease Management (Heart & Cancer)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Senior Services / Activities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Number of Women Getting Mammograms	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Low Immunization Rates	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Available Healthcare Outcomes Data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**4. Which 2012 CHNA health needs are most pressing TODAY for improvement? (Please select top three needs).**

- |                                                                 |                                                                        |
|-----------------------------------------------------------------|------------------------------------------------------------------------|
| <input type="checkbox"/> Obesity                                | <input type="checkbox"/> Chronic Disease Management (Heart and Cancer) |
| <input type="checkbox"/> Available and Affordable Healthy Foods | <input type="checkbox"/> Senior Services / Activities                  |
| <input type="checkbox"/> Available Mental Health Services       | <input type="checkbox"/> Number of Women Getting Mammograms            |
| <input type="checkbox"/> Number of Uninsured / Under-insured    | <input type="checkbox"/> Low Immunization Rates                        |
| <input type="checkbox"/> Additional Health Education Offerings  | <input type="checkbox"/> Available Healthcare Outcomes Data            |

**5. How would community members rate each of the following services? (Please check one box per row).**

	Very Good	Good	Fair	Poor	Very Poor	N/A
Ambulance Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Child Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chiropractors	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Dentists	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Emergency Room	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Eye Doctor / Optometrist	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Family Planning Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Home Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hospice	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**6. How would our community members rate each of the following? (Continued). (Please check one box per row).**

	Very Good	Good	Fair	Poor	Very Poor	N/A
Inpatient Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mental Health Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nursing Home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Outpatient Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pharmacy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Primary Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public Health Department	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
School Nurse	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Visiting Specialists	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**7. Over the past two years, did you or someone you know receive healthcare services outside of our community?**

☐ Yes

☐ Do Not know

☐ No

If yes, please specify the healthcare services received

**8. Are there any other health needs from the list below that we need to discuss at our upcoming CHNA Town Hall meeting? (Please check all that need to be on our agenda).**

☐ Abuse / Violence

☐ Mental Illness

☐ Suicide

☐ Alcohol

☐ Nutrition

☐ Teen Pregnancy

☐ Cancer

☐ Obesity

☐ Tobacco Use

☐ Diabetes

☐ Ozone (Air)

☐ Vaccinations

☐ Drugs / Substance Abuse

☐ Physical Exercise

☐ Water Quality

☐ Family Planning

☐ Poverty

☐ Wellness Education

☐ Heart Disease

☐ Respiratory Disease

☐ Lead Exposure

☐ Sexual Transmitted Diseases

☐ Other (please specify)

**9. Do you follow these health practices...? (Check one box per row).**

	Yes	No	N/A
If over 50, have you had a colonoscopy?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If male over 50, do you have annual prostate exams?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If female over 40, do you have annual mammograms?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If female, do you have a pap smear every other year?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**10. Please complete sentence below. Are you...?**

	Yes	No	N/A
Eating right (5+ servings fruits/veg)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Using tobacco products weekly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exercising 2-3 times weekly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Consuming alcohol (more than 1 drink daily)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Receiving an annual flu immunization	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Demographics**

**11. What is your home zip code?**

**12. Finally for reporting purposes, are you involved in or are you a...? (Please select all that apply)**

- |                                                         |                                                           |                                                     |

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1064		AGE	INSU	NUTR	Elder Care, Health Insurance Coverage, Diet Education/Availability to affordable quality food.
1125	66049	AGE			more assistance for seniors
1155	66062	AGE			Senior Care
1195	66202	AGE			With the anticipated dramatic increase of our region's older adult population (particularly in Johnson County), this is an issue that requires increased attention.
1257	66061	AGE			more care for seniors
1086	66062	AMB			The Olathe Fire Department should operate the transport ambulance service.
1223	66067	AWAR			Just continued awareness of what's out there.
1034	66062	BH	IP	OP	Mental Health - need more services available for mental health, both inpatient and outpatient
1100	66215	BH	IP		There is a lack of mental health support in the community. There is a lack of inpatient mental health support at Olathe Medical Center.
1070	66061	BH	OBES	NUTR	mental health obesity affordable healthy food
1091	66221	BH	SPEC		Access to Mental healthcare, access to specialists
1133	66062	BH	WAG		Mental health. Care for low income and those on fixed incomes.
1256	66062	BH	WAG		Mental health needs and continued resources for low income residents
1025	66021	BH			facilities for those with mental issues in the Olathe area
1031	66062	BH			Mental health issues need more attention, specifically for the teens and young adults.
1056		BH			Mental Health Care
1059	66061	BH			Mental Health Care
1084		BH			Mental Health care is lacking
1108	66067	BH			Nationwide - Mental Health needs to be addressed better. We no longer are able to 'force' people who need help with mental health to get the help they need. Instead we watch helplessly as they continue to kill innocent people. While we listen to the same old talking points that we need to get rid of guns. Instead of addressing the real issue - we used to have multiple mental hospitals in the state of Kansas - where are they now?
1251	66062	BH			Mental health needs are continuing to grow, yet the state continues to cut funding to community level mental health facilities and services. I realize this is an issue that currently can move outside of medical health care, but it is a growing issue where needs are not being met.
1270	66061	BH			more mental health services are needed
1036	66061	CHRON	DIAB		Care for chronic conditions such as diabetes and CHF.
1222	66071	CLIN	DUP	DOCS	The Paola Hospital medical clinic. In our experience they make a lot of errors, such as scheduling, instructions for blood draws, billing. Constant turnover of physicians.
1069	66030	CLIN	URG	WAIT	Care Express in Gardner, KS needs to be staffed with a provider during the hours of operation. It is not consistent with the hours posted. There is not back up plan for when a provider is ill or on vacation. The people in town and surrounding communities love the clinic and it's services, however it needs to be staffed with a provider during hours of operation.
1126		CLIN	URG	WAIT	Clinics are easy to access and make appointments. The only complaint would be the availability of same day appointments. On many occasions it is walk in only and I am not able to see a doctor, instead I see a physicians assistant.

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1194	66083	CLIN	URG	WAIT	we need a full service clinic that is open nights weekends and etc.
1170	64152	CLIN			More walk-in clinics at hospitals for minor health concerns.
1068		COMM	AGE	INSU	Yes, referrals to brother physicians that are less than necessary. Gives the patient the impression Olathe Medical is desparate for revenue, a black eye for OMC. Better communication and help with elder placement into extended nursing facilities and/or better guidance to transition with Social Security, Medicaid etc. Not to point the direction, to guide thru the process.
1101	66030	COMM	DOCS		Better communication from Physicians regarding your care.
1269		COMM	EMR	EMER	lack of continuity between providers that are owned or operated by the same company. So this means to me for instance going to a doctor whose practice is owned by HCA, then a hospital owned by HCA, and yet having to fill out separate paperwork at each facility as if i'm a net new patient. Not only does this annoy me, but it also implies that there is no shared medical record database between the facilities, which can have horrible consequences. Think for a moment if I had an allergy that I told my primary care physician about, but forgot to mention to an urgent care facility, or the ER, or a specialty referral. As to physical proximity Olathe Medical Center is nice, but isn't a level-1 trauma center, so if one of my kids was sick, or if I was, I would never choose to go there in an emergency. I've taken my wife there for a broken finger, but that's about it.
1239	66062	COMM	INSU	WAIT	I would like to see a case management service for coordinating elderly individuals' doctor appointments, insurance and prescription issues. Adult children have full-time careers and often do not have the time to do all of this during normal working hours. Another need is for doctor appointments to be available in non-traditional hours, such as from 5 pm to 9 pm. Again, most people have full-time careers and have to take time off work to go to the doctor. People who have multiple health issues spend down their vacation hours for doctor appointments only, leaving no time for a break that could contribute to well-being. Primary care physicians and specialists holding evening hours would be very helpful.
1217	66215	COMM	INTERP		Need better communication between different providers and better accessibility for input from Deaf (users of American Sign Language - ASL - and sometimes use new technology to communicate) or Hard of Hearing community (tend to be users of technology and usually do not use ASL).
1142	64012	COMM	NURSE	OP	More communication among nurses. Not specific to OMC, but often am told different things by different nurses, ie pre-op nurse says one thing and post op says or does the opposite.

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1027	66219	COMM	QUAL	SMOK	Would like to receive care for my entire family here in Olathe. If a family member needs to be transferred for care, keep my doctor updated, and transfer the patient back when safe. Better quality food in the hospital. Eliminate soda and other unhealthy foods from all areas of the hospital. Make tobacco screening a part of employment. Other health systems have done this. No smoking anywhere on campus. Need to figure out a better way to serve hispanic people in the community. Need to be sure the hospital reflects the changing demographics of Olathe and the surrounding area. I understand that a hospital in Independence just closed. What are we doing to serve the people from that area?
1237	66061	COMM	WAIT	PT	1) much better coordination of physicians is needed 2) also would be nice to be able to do some visits via video/facetime for simple/routine matters 3) expanded hours of availability for some services like PT (include Saturdays)
1216		COMM			Knowing one's diagnosis and the best steps to address a diagnosis with one or several providers in a coordinated fashion.
1241	66061	COST	CANC		Cost of healthcare and cancer services
1267	66030	COST	DRUG		Cost of care and meds
1247		COST	INSU		The cost, working with health insurance, billing,
1286		COST	QUAL		cost, quality
1176	66062	DENT	INSU	WAG	Dental care for the poor needs addressed.
1009	66061	DERM	CLIN		Need a dermatology clinic associated through OHSI
1179	64152	DOC	DUP	INSU	Wait to see a doctor, billing errors, and insurance not covering as much as it used to
1249	66215	DOCS	INSU	DUP	Education doctors to prepare cost plans instead of just ordering test. As deductibles go up, patients need to be informed of their options with the cost associated even if just a difference between the pill for poison ivy or the shot.
1210		DOCS			Testing without doctors orders / cholesterol / HeartScore64 Calcium Score Screenings / Needs to be advertised to the community and results given directly to the patient.
1017	66215	DRUG	INSU		Cost of drugs; need to decrease the number of uninsured/expand Medicaid; reduce sales tax so poor people can better afford healthy food
1221	66062	EMER	PEDS	BH	Increased/improved emergency and specialty pediatric care at Olathe Medical Center and increased access to mental health services in the community.
1246		EMER	WAIT		Emergency Room - understaffed and long wait times.
1262	66061	FP	NEU	CARD	There are not enough family physicians to accommodate needs. Appointment openings are generally months out. There is also a shortage of specialists such as neurologists, cardiologists and more. This is not a quick and easy fix. It is essential that universities and colleges providing this training significantly increase the number of students.
1055	64081	IFD			Ebola and Highly infectious disease training in accordance with CDC tiered approach. Will require increased training as well as preparation for just in time training. Increased awareness and training with state Ebola Assessment Hospital (The University of Kansas Medical Center).
1058		IFD			Training and awareness of Ebola/Highly Infectious disease training in accordance with CDC Tiered approach and communication with State Ebola Assessment Hospital.

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1023	66061	IM	DOCS	WAIT	Currently no internal medicine doctor accepting patients. The entire Shermoly office not accepting patients. No othe internal med practice avail
1243	66062	INSU	PNEO	PEDS	With Medicaid not being expanded in KS there are a lot of people whose needs are not being meant. We have a lot of newborn babies whose mothers did not get prenatal services, leave the hospital without an assigned pediatrician, and many of these mothers are hispanic. It is my understanding OMC has one translator which can make it hard for the hispanic population.
1129	66061	INSU	SPEC		Always an issue on how to serve the uninsured, especially if they need to see a specialist. Also, we could use more help in completion of Medicaid/KanCare applications.
1104	66062	INSU	TRANS		Community resources for underinsured patients, transportation resources.
1171	66062	INSU	WAG		Healthcare is a basic human right and no one should have to go into debt or create a Kickstarter or Go Fund me page or start an annual 5k to pay medical bills. Never ever. No family should ever have to think "my copay is \$2,000... Is it worth taking my child in for what is probably just a cold?" No.
1052	66030	INSU			low or no cost services for low income people. i do christian healthcare ministries so it complies with the AHC but it is hard to find a low cost lab or xray place.
1088	66067	INSU			More financial assistance for non-insured.
1177	64086	INSU			Services for under insured
1279	66062	INSU			The billing/payment of bills process.
1137		INTERP			Need more live interpreters in the medical field
1198	66062	INTERP			About interpreter I want my choice date to appointment but usually my want never do usually follow interpreter own schedule need change their habit
1199	66062	INTERP			Put more consideration to language variance needs as such as Deaf individuals might benefit from having CDI (Certified Deaf Interpreter). This consideration has become required in several states and KCDHH might consider this avenue, but it is OMC's opportunity to provide leadership in this area, rather than making quick assumption that this services is not needed. Interpreters alone without CDI only achieve 75% of all communication needs that qualify as effective communication. That means 25% has not been effective!
1201	66061	INTERP			When a person mentions any problem with his or her health, it needs to be put down on computer data, A doctor can follow up the problem until the person satisfies with the health problems. OMC always has a best sign language interpreting service. Keep on with this service.
1202		INTERP			Need to improve interpreter service on time with an appointments without delaying or reschedule to other date.
1203	66061	INTERP			continued improvement in services for the Deaf community
1209	66203	INTERP			Cultural and Language Appropriate Services. Olathe has been becoming a more welcoming community to all but while the city's efforts have been growing, those of the healthcare system and OMC in particular are still not visible. Many members of our community from different languages and backgrounds still have trouble accessing healthcare that is also equal to most in the community.
1232	66061	INTERP			It needs to be deaf friendly .
1139	66061	NEO			Level 3 NICU in Oathe.

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1206	66078	NEU	RHE	ENDO	Need neurologists, rheumatologists and endocrinologists
1272	66062	NEU			neurology
1268	66219	NURSE	COST	QUAL	The medical world is trying to do more with less. We have CNAS and CMAS acting as RNs I an effort to preserve finances.
1178	64062	NURSE	DRUG		Nurse to patient ratio, over prescribing of drugs to patients-
1053	66061	NUTR			Yes. I am involved in health care and have noticed many trends in complex health issues related to diet....conditions not typically addressed by the RD community. Accessibility to research-based nutrition information for the community is sadly incredibly limited, yet nourishment plays a profound role in the improvement of health.
1235	66205	OBES	BH	INSU	Obesity, access to medical and mental health care for under and uninsured, alternatives for frail elderly
1044	66062	OBES	WELL	AGE	Continued focus on obesity and weight management. Wellness and injury prevention, especially among the growing elderly population. Wellness in the elderly is much different than wellness with younger age groups.
1280	66062	OBES			Obesity; weight loss programs; research studies promoted
1174	66216	OBG	PEDS		More in-room support for women who have had c-sections would be nice. There needs to be a non-bassinet option since it's impossible to get out of bed quickly to get to your baby.
1219		OBG			I feel women are still treated differently than men. Men are taken more seriously.
1285	66220	OP	INSU		no one recognizes the high number of services lacking for the uninsured or undocumented citizens
1024	66053	OP			Have more services available in Miami county.
1236	66213	OP			More progressive options
1245	66061	OP			More options for healthcare in close proximity to my home and work. Live and work on the Northside of Olathe.
1276	66226	ORTHO			Better more advanced Orthopedic Care
1014	66061	PAL	MAN		Continued support of palliative care in the hospital. Olathe does a nice job relative to other hospital systems, but if this initiative is not supported by the upper management in the system I fear that the program will fizzle out.
1153		PEDS	ALL	INSU	More help for kids with life-threatening food allergies - more protection in schools; availability of epinephrin in classrooms, lower co-pays for epi-pens and Auvi-Q.
1157	66106	PEDS	BRST		In birthing units, I feel they pressure mothers to breastfeed more than they should. There are also some doctors that have brought religion into their answers to legitimate questions.
1138	66204	PEDS			Infant loss
1163	65336	PREV	CLIN		We could use more preventative care type clinics so when we go to the clinic we are not intermingled with ill people.
1095	66062	PREV	INSU		free care including birth control for young girls that aren't willing to talk with their parents.
1135	66062	PREV	WELL	WAG	Preventative education in low income areas, child development and health issues in low income areas
1161		PREV			Need preventative care forums
1192	64012	PREV			Prevention

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1225	66062	PRIM	URG	WAIT	I have found it difficult to develop a good relationship with a primary care provider. The office I go to is very busy, but does not seem to be run efficiently. I spend more than 15 minutes past my appointment time in the waiting room, then I spend another 10 minutes at least in an exam room before being seen by the doctor for a few minutes. I feel like my time is not seen as valuable, because of the long wait times, and then my appointment is very rushed. The office and healthcare workers have all been friendly, but so little time is actually spent with the patient.
1274	66208	PSYC	INSU	OBG	Psychiatrists who accept Medicaid; closing the gaps on the idd population in regards to mammograms, cervical cancer screens and colonoscopies.
1092	66062	PSYC	INSU	URG	There needs to be more "sick" appointments each day in the Physician's offices. Also more Psychiatric Beds and services available and more emphasis on helping indigent people get insurance with someone navigating the system for them
1072	66061	PSYC			we have got to have a psychiatrist on staff for OMC
1134	64131	PSYC			Better psychiatric care
1075	66062	QUAL			I think the QUALITY of the service. Like they doctor's offices a lot of time the front people and nurses are just rushing and not listening because it's more important for the to move on to the next thing.
1079	66018	QUAL			i think omc is outstanding
1266	66221	READMIN			Better discharge planning to reduce readmissions
1081	66062	SPEC	DIAB		There are really no specialists to treat diabetes in Olathe. I really would like to be able to see a diabetes specialist in Olathe, nor Overland Park or Shawnee.
1007	66221	SPEC	INSU		We Need More Specialist in our hospital, So that we don not have to go outside of our network and pay higher prices for our care.
1114	66021	SPEC	RHE	VASC	WE NEED MORE SPECIALTY DRS. THERE IS NO LOCAL RHUMATOLOGIST OR SELECTION OF VASCULAR SURGEONS.
1190	64083	SPEC			More specialist in our area so we don't have to travel
1019	66062	TRANS	INSU		transportation to doctor's visits assistance for the uninsured
1215	66061	TRAU	PEDS		Access to integrated medical/behavioral health services and Trauma Informed treatment that looks at the impact of adverse childhood experiences on health
1127		TRSGDR			Transgender population growing Health Disparities Transition of care
1263	66062	URG	CLIN	PEDS	Increased hours for walk in clinics. Increased available appointments with pediatricians for well child checks.
1093	66030	URG	DOCS	NP	I live in Gardner and I feel with the city's population has reached a level where we could use an urgent care with real doctors, besides the nurse practitioner at Price Chopper. I also feel the out of pocket is extremely high.
1166	64152	URG	WAIT	EMER	Maybe have more options/hours of places to go before going to the hospital for an emergency
1060	66061	VACC			Access to affordable immunizations
1230	66061	VASC	SUR		need more vascular surgeons
1136	66212	VIR			virus outbreaks should be spoken about on the media more so parents can be aware before our children catch said virus
1207	66078	WAIT	DOCS		Wait times for doctors and procedures.
1212	66062	WAIT	SPEC		Waiting 3-6 weeks minimum to see a specialist is somewhat depressing.

CHNA Round #2 Community Feedback 2015					
OMC Primary Service Area - Johnson County, KS N=291					
ID	ZIP	c1	c2	c3	Are there healthcare services in your community / neighborhood that you feel need to be improved and / or changed?
1106		WAIT	URG	EMER	It seems impossible to get into a Dr. when you are sick. Often they are booked and appointments are weeks out. It basically leaves the ER or Urgent Care as the only options.
1094		WAIT	URG		
1211		WAIT			Attention to our customers concerns and need for a timely appointment. A kind and courteous individual at the initial point of contact and on into the process.
1261	66062	WAIT			Wait times at Olathe medical are the worst in the area it is almost faster to drive across town to Shawnee Mission or Overland Park and get right in.
1066	66062	WELL	DIAB	PREV	More education to the public on diabetes, especially prevention and all of the comorbidities that people are at risk for when they have DM.
