Claim Your Healthgrades Account

Ensure patients discover your updated profile

Healthgrades is a third-party digital platform that prospective patients may use to identify a provider to support their care. Established patients may also leave reviews.

Getting started
Visit healthgrades.com to claim your free profile.
- Step 1: Go to the account registration page and search by provider name.
- Step 2: Follow the prompts to complete registration.
- Step 3: Enter an email address and password to associate with the account.
- Step 4: Review the "User Agreement."
- Step 5: Click "Register Now."

Once you've claimed your profile, you have the option to add your photo and update your information. The health system can provide your physician directory photo by emailing brandhub@kumc.edu.

Forgot your password
When following prompts on the Healthgrades Physician Portal sign-in page to reset a forgotten password, the system will send an email to the specified email address associated with the username.

For additional support, notify your communications team for direct vendor support.

Online reviews
Third-party platforms should be used in alignment with health system social media, HIPAA and other policies. For strategic guidance please reach out to your communications team for assistance.
